Curriculum Vitae

BACHELOR OF ENGINEERING IN CIVIL WITH 3 YEARS EXPERIENCE IN CONSTRUCTION INDUSTRY

CAREER OBJECTIVE

Professional Civil Engineer with extensive knowledge of planning and building infrastructure projects, and eager to join a reputable organization to begin a fulfilling, lifelong career. Bringing leadership, drive, and over Two years of experience to the table

PROFESSIONAL SUMMARY

Highly skilled and knowledgeable Civil Engineer with a strong record of sound and safe public works construction projects. Adept at coordinating with building and engineering professionals for every project stage. Strong multitasker with exceptional skill in functioning well in a high-pressure work environment

- Strategic and innovative leader who thrives on challenge, given the opportunity to Excel and deliver.
- Skilled in numerous computer software programs including Word, Excel and Photoshop
- Multilingual with excellent verbal and written skills in English, Hindi, Urdu, Marathi.
- Capable of working independently and handling complex assignments efficiently.

ATTRIBUTES & STRENGTH

- Excellent Analytical Skill, Self-Management, Target Oriented & Multitasked
- Excellent Leadership Qualities, Team Spirit and Team builder
- Innovative, Creative, self-motivated to quickly build professional relationship with People
- Self-confident and Positive thinker

EDUCATIONAL QUALIFICATION

- **Diploma in Engineering – Civil**
Maharashtra Board
- **Bachelor of Engineering – Civil**
Mumbai University

Academic Project

- Design of R.C.C Structure (G+2)
Residential Building Using ETAB Software
- Statistical Data Analysis and Collection Technical Used in Civil Engineering Research with Remote Sensing and G.I.S Approach

Achievement:

- Achieved First class with 'A-Grade' in Indian institute of personality development
- Achieved 'A- Grade' in NCC.(Fajandar High School)

Technical skills:

- AutoCAD
- STAAD Pro
- ETABS
- Proficient in using the internet navigation

WORK EXPERIENCE:

Rushi Housecon Group

(February 2024 – February 2025)

Site Engineer:

- Ensuring sites are safe and clean.
- Preparing cost estimates and ensuring appropriate materials and tools are available.
- Providing technical advice and suggestions for improvement on particular projects.
- Diagnosing and troubleshooting equipment as required.
- Supporting suppliers and vendors to ensure the best quality and finish.
- Authorizing technical drawings and engineering plans.
- Drawing up work schedules and communicating any adjustments to crewmembers and clients.
- Gathering data, compiling reports, checking for material requirement on site and giving requirements.
- Delegating tasks and scheduling meetings and training sessions where required.
- Completing quality assurance and providing feedback to the team.

A.K. Hitech Developers

(August 2020 – February 2022)
(July 2022 – January 2023)

Site Engineer:

- Consults with and provides guidance to project stakeholders and managerial staff regarding engineering requirements for construction of various designs, modifications, and structural repairs.
- Uses design software and drawing tools to accurately render and communicate designs; plans and designs other necessary and related systems and structures such as transportation or hydraulics.
- Assesses strength of foundations, concrete, or steel by testing materials and soil.
- Sets design specifications by computing load and grade requirements, material stress factors, water flow rates, and similar parameters.
- Plans projects based on the analysis of relevant materials such as drawings, blueprints, aerial photography, survey reports, maps, and other geologic and topographical data.
- Drafts and presents reports on topics related to projects such as environmental impact statements and right-of-way descriptions.
- Estimates materials, equipment, and labor needed to determine project costs.
- Collaborates with architects and contractors to ensure projects progress properly.
- Collaborates with surveyors (or directs and participates in surveying) to establish installations or reference points, grades, elevations, and other factors that will affect construction.
- Monitors project progress and ensures design specifications, safety, and sanitation standards are met.
- Completing quality assurance and providing feedback to the team.
- Performs other related duties as assigned.

HOBBIES / INTEREST

Reading Books, Travelling, Listening music and Surfing the net.
