## Civil Engineer/Planning engineer

JEDDAH | 0534881620 | [Majdialjarrah7@gmail.com](mailto:Majdialjarrah7@gmail.com)

### Summary

Civil and Planning Engineer with a Master's degree in Water and Environmental Engineering, combining a strong civil engineering background with specialized expertise in project planning and scheduling. Skilled in Primavera P6 for developing, updating, and monitoring project schedules, including cost and resource loading, cash flow preparation, and earned value analysis. Experienced in site execution, coordination with multidisciplinary teams, and integrating field progress with project controls. Highly organized, detail-oriented, and capable of managing multiple priorities under pressure while delivering accurate reports and ensuring alignment with project objectives.

### Work experience

#### Planning Engineer

April 2024 - Until Now

#### Civil Work Company

Project name:

Implementation of storm water drainage solutions for hail box culvert Part 1,2

Responsibility:

1. Project Scheduling & Planning
2. Progress Monitoring & Reporting
3. Resource & Cost Management
4. Delay Analysis & Mitigation
5. Coordination & Communication

June 2020 - JAN 2023

#### Senior Planning and Roll out infrastructure Engineer

#### DAR AL OMRAN Infrastructure & Environment (Joint venture DAO and Saudi consult (SC))

Project name:

supply and executing optical fiber networks in the middle governorates in Jordan (Owner: Ministry of Digital Economy and Entrepreneurship)

Project Description:

1 Excavation:

-Ring routes excavation are 150km

-Access routes excavation are 115km

-Site civil preparation (as schools, hospitals...etc)

-Chamber excavation (Manhole, Handhole ...etc)

2.Length of HDPE pipes are 415 km

3-Backfilling

all backfill materials (base course, single size...etc) according to Ministry of public works & housing specification

4-Restoration

all restoration materials (hot mix asphalt) according to Ministry of public works & housing specification

### Personal Information

Date of Birth: June 27th 1989

Nationality: Jordanian

Marital Status: Single

### Achievement

I have the highest GPA in the undergraduate in Civil department

### Volunteer Work

- sewer system design for Al-Mazar AL-Shamali city
- Storm drainage water design for Central KARJA city
- Member of the Administrative Committee of Awan Association for Community Development (2018-Until Now)
- Chairman of Young Engineers Committee, Irbid Branch (2012-2015)
- Coordinate for many free Courses, workshops, Scientific Trips, Community work.etc
- Active member of the Society for the preservation of the Jordanian environment (2011-2013)

### Awards

- Honorable Award from Jordan Engineers Association
- Honorable Award of the Society for the preservation of the Holy Quran
- Certificate of appreciation from Jordan Engineers Association / Civil Engineering Division

### Conferences:

- Participation in Poster Presentation During The 8TH International Conference on Engineering Project and Production Management, (2017).
- First Irbid International Engineering Conference, (2014).
- First Young Engineers Conference, (2014).

## Senior Civil Engineer

August 2019 - June 2020

### kalid aldarour Contracting

Project name:

Create Bridge and road on Wadi Al-Arab stream

Responsibility:

1. Supervising the engineers and assistant engineers
2. Document reports and submit them to owner
3. preparing and executing rebar drawing
4. executing project drawings
5. Preparing and controlling time plan
6. preparing A Progress Claim
7. Site administration
8. Project time scheduling

## Head of Engineering Department

August 2015 - September 2019

### Aseel Hatamleh for Management Consulting& Training Solutions

Responsibility:

1. Supervision and design Engineering Projects (Structure, Infrastructure.)
2. Quantity surveying (structure, infrastructure)
3. structure Shop drawing
4. Create and implement best practice engineering vision, strategy, policies, processes and procedures to aid and improve business performance
5. Ensure that engineering strategies and processes are in place to meet business objectives and operational needs in terms of price, quality and delivery targets and which enables the company to function and compete effectively in the market
6. Providing technical support to the business development
7. Work with administration department on product development, market opportunities and trends
8. Set department objectives and monitor ongoing progress and performance
9. Responsible for developing the appropriate organizational structure, resource plans and culture to support the business objectives
10. Input and hold responsibility for engineering budgets

Freelance and consultant

September 2015 - Until now

#### organization

1. Aseel Hatamleh for Management Consulting & Training Solution

2. Consultative Center for Science and Technology at JUST University

3. Jordanian Engineers Association

4. Raiat-watan for Training solution

5-Al-QaQ Consulting

#### Subjects

- Sewer Gems
- Water Gems
- Primavera
- Auto Cad 2D
- Quantity Surveying
- Civil Shop drawing
- Epa.net
- Infrastructure, Drawing,others

Storm CAD

- Shop drawing Primavera

Infrastructure Course

- Water network design for Military housing

## Civil Engineer/site engineer

June 2013 - December 2014

### Omar Abdul Samad Al- Rashed Contracting Two Residential Building

- Setting out, leveling and surveying the site.
- Checking plans, drawings and quantities Surveying
- Ensuring that all materials used and work performed are as per specifications.
- Agreeing a price for materials, and making cost-effective solutions and proposals for the intended project.
- Overseeing quality control, health and safety matters on site.
- Day-to-day management of the site.
- preparing BBS and executing rebar as drawing

## Studies

- Gray Water System, Systems, Implementation. (Cewas Prize)
- Equation of SanVent in Sanitation Networks. (Jordan University, Master Studies)
- Central Amman slaughterhouse Waste Water (Jordan University, Master Studies)
- Wastewater Treatment in first Graduated Project -Environmental Laboratory - Al-balqa Applied University, Jordan - Project Title (Coagulation in Kaoline Suspension) include Software Design for Water Test and Calculation, (2011).
- Second Graduated Project - Environmental Laboratory Albalqa Applied University, Jordan - Project Title "TESTING AND TREATMENT OF WASTEWATER AFTER JEANS WASH "(Using Jar Test & MINEQL+). (2011)
- Solid waste management regulation in Jordan

## Skills

Prokon

E-tabs

Primavera

Civil 3D

Watershed modeling system (WMS)

Hydrological Models

Leadership

Negotiation skills

Working Under Pressure

Professional skills in MS Office

HEC HMS -HEC RAC

- prepare exciting plan

**in progress**

---

Civil Engineer/site engineer September 2011 - October 2012  
[Omar Abdul Samad Al -Rashed Contracting - Three Residential building and a villa](#)

- 1- PMP
- 2- Fidic

- Setting out, leveling and surveying the site.
- Checking plans, drawings and quantities for accuracy of calculations.
- Ensuring that all materials used and work performed are as per specifications.
- Agreeing a price for materials, and making cost-effective solutions and proposals for the intended project.
- Overseeing quality control, health and safety matters on site.
- Day-to-day management of the site.

### Membership:

---

- Member in Jordan engineering association, Civil Eng. Branch
- Member of the Administrative Committee of Awan Association for Community Development (2018-Until Now)

### Education

---

Master Degree 2014 - 2017

[University of Jordan](#)

- Master Degree in Civil Engineering - Water and Environment, 2014-2017, with GBA (3.44 of 4) (Very Good)

Thesis Title" Estimating the peak flow discharge at Wadi AL-Arab catchment area using hydrological model"

Bachelor Degree 2007 - 2011

[Al-Balqa' Applied University](#)

B.Sc degree in Civil engineering - Water and Environment, 2007-2011, with GPA (3.72 of 4) (excellent)

### Languages:

---

Arabic:Mother tongue (excellent)

English: Writing, speaking, and reading (very good)
