📄 PROFILE

I am a Laravel PHP Full Stack Developer with 5 years of experience in building and maintaining web applications. My expertise encompasses both front-end and back-end development, with a focus on creating practical and user-friendly solutions. I am committed to writing clean and efficient code while ensuring the performance and reliability of the systems I build. I am eager to take on new challenges and contribute to projects where I can apply my skills and grow further.

🧠 SKILLS

Tools and Frameworks

- Laravel, PHP, Symfony, Vue.js, React.js, Tailwind CSS, Alpine.js, Composer, NPM, Webpack, Git, Docker, AWS

Backend Skills

- Laravel, PHP, MVC Architecture, RESTful API development, Authentication & Authorization (JWT, OAuth), Server-side rendering, and session management

Frontend Skills

- HTML5, CSS3, JavaScript, jQuery, Vue.js.js, Tailwind CSS, Bootstrap, Responsive Web Design

API Integration

- Payment Gateways (Stripe, PayPal), Third-party API Integration (Social Logins, External Data), RESTful API, JSON

Testing

- PHPUnit for unit and functional testing, Test-Driven Development (TDD), Browser automation with Selenium

DevOps

- Docker for containerization, CI/CD pipelines, AWS (EC2, S3, RDS)

Databases

- MySQL, PostgreSQL, Database optimization (queries, indexing), MongoDB (NoSQL)

🎓 EDUCATION

Master of Computer Science

Bahauddin Zakariya University, Multan
2017 – 2019

📁 WORK EXPERIENCE

3Amigos

Software Engineer

01/2022 – Present | Lahore

Achievements/Tasks

- Designed and developed end-to-end web applications, implementing RESTful APIs for seamless data exchange and integration.
- Integrated and synchronized multiple third-party CMS platforms, ensuring data consistency, scalability, and optimal performance.

Solutions Wave

Junior Developer

01/2021 – 01/2022 | Lahore

Achievements/Tasks

- Developed server-side logic and back-end components, integrating third-party web services.
- Developed a Laravel-based application for a Shopify store to enhance product listing and additional features.

📁 PERSONAL PROJECTS

Pepper - Fitness Academie

- A service-based platform for fitness consultations and gym appointment bookings, enabling businesses to register and efficiently manage their appointments.
- Integrated third-party gym CRMs (Go High Level, Desiplus, Heitz, Sportigi) and centralized appointment data for seamless management and synchronization.

Complyly (AI-Powered Compliance Platform)

- Integrated multiple CRMs (Zoom, HubSpot, Salesforce, RingCentral, Close, Foniva, Kixie, Just Call, Google Meet, Zendesk, Aloware, GHIL) using OAuth authentication, enabling secure data access and synchronization.
- Developed an automated call recording analysis system that retrieved user recordings from integrated CRMs and analyzed them for FTC compliance violations.
- Implemented real-time compliance alerts, notifying users of potential FTC rule violations in their sales and marketing communications.

Bulk Master – E-commerce Product Listing Automation

- Developed an automated product listing system for Shopify, Walmart, and eBay, enabling seamless bulk uploads and updates.
- Integrated API-based synchronization, ensuring real-time inventory, pricing, and product data consistency across multiple platforms.
- Optimized listing workflows, reducing manual effort and improving efficiency for sellers managing high-volume product catalogs.

UTT-Manager - Property Booking System

- Developed a property management platform enabling administrators to add properties and users to book accommodations for durations ranging from one to seven days.
- Integrated Worldpay payment gateway, facilitating secure and seamless online transactions for property bookings.
- Implemented real-time booking and availability features, ensuring up-to-date information for both administrators and users.
