SUMMARY

Civil Engineer with a strong academic background, holding a Bachelor's degree in Civil Engineering and a Diploma in Architectural Construction. Skilled in structural design, drafting, and project management using AutoCAD, Revit, and Microsoft Office applications. Passionate about applying engineering principles to deliver sustainable and innovative infrastructure projects.

EDUCATION

Bachelor's Degree in Civil Engineering

Technical College

2023 - 2025

GPA: 4.59

Diploma in Architectural Construction

Technical College

2018 - 2020

GPA: 4.36

WORK EXPERIENCE

Civil Engineering Internship – Technical College

Training Period

2024

- Assisted in preparing structural drawings using AutoCAD and Revit.
- Conducted site visits to monitor construction progress and ensure compliance with safety standards.
- Supported engineers in project planning, cost estimation, and quantity surveying.
- Prepared technical reports and documentation for academic projects.

Graduation Project – Design of a Multi-Story Building

Project

2025

- Designed structural elements using engineering principles and software (AutoCAD, Revit).
- Performed load calculations, material estimation, and safety analysis.
- Collaborated with a team to deliver a full project report and presentation.

TRAINING & CERTIFICATIONS

- Project Management Course
- Occupational Health & Safety in Construction Sites
- Project Risk Management

TECHNICAL SKILLS

- Design & Drafting: AutoCAD, Revit
- Productivity Tools: Microsoft Office (Word, Excel, PowerPoint)
- Project Management: Planning, risk assessment, and scheduling

SOFT SKILLS

- Strong problem-solving and analytical thinking
- Teamwork and collaboration
- High attention to detail and accuracy
- Commitment and discipline in work environment
- Quick learner and adaptable to new technologies
