

Osman Abdullrazzaq, P.Eng., PMP, MPM

Toronto, ON / (647) 570 – 9101 / osman.abdullrazzaq@gmail.com

CAREER PROFILE

- Civil Engineer with over 20 years of experience delivering complex, infrastructure, transit, and land development projects in Canada and the GCC (Saudi Arabia).
- Proven expertise in the design and construction of heavy construction, municipal engineering, and land development projects through both design-bid-build and design-build delivery models, from concept through to completion.
- Skilled in project leadership, stakeholder coordination, and multidisciplinary team management, supported by excellent organizational and communication skills.
- Strong ability to work independently, manage multiple projects, perform under pressure, and meet tight deadlines in fast-paced environments.
- Proficient in AutoCAD Civil 3D with strong knowledge of applicable engineering standards and specifications.
- Recognized for problem-solving, adaptability, and fostering collaboration across diverse projects and geographies.
- Passionate about shaping communities through innovative and sustainable infrastructure solutions and committed to continuous professional growth.
- Open to opportunities in land development, major transit projects, and global infrastructure programs.

PROFESSIONAL EXPERIENCE

Civil Engineer - GEI Consultants Inc. (Apr 2022 - Present / Toronto, ON)

- Design civil components for land development projects, including subdivisions, site plans, roadways, site grading, sanitary systems, stormwater management, erosion, and sediment control.
- Collaborate with multidisciplinary teams, contractors, and municipal authorities to ensure compliance with applicable engineering standards and specifications.
- Prepare and review construction drawings, cost estimates, and earthworks calculations to support tender and construction phases.
- Manage project documentation and communicate progress to internal and external stakeholders.

Designer/EIT/Civil Engineer - B.I.G. Consulting Inc. (Jul 2018 - Apr 2022 / Toronto, ON)

- Produced detailed CAD drawings from concept to final design using AutoCAD Civil 3D.
- Coordinated with engineers, planners, and survey teams to integrate design requirements and resolve technical challenges.
- Conducted site inspections to verify design implementation and ensure compliance with specifications.

Concrete Field & Lab Technician - Bridge Check Canada (Jul 2017 - Nov 2017 / Toronto, ON)

- Performed concrete sampling, testing, and reporting in accordance with industry standards.
- Coordinated with site teams to ensure timely testing and compliance with project requirements.

Osman Abdullrazzaq, P.Eng., PMP, MPM

Toronto, ON / (647) 570 – 9101 / osman.abdullrazzaq@gmail.com

Roads' Department Leader - Al Hamroor Group (Nov 2015 - Sep 2016 / Saudi Arabia)

- Led the planning, design, and delivery of roadway and bridge works, managing design teams, subcontractors, and suppliers to ensure on-time and quality delivery.
- Analyzed land survey data, identified design deficiencies, and proposed effective engineering solutions.
- Oversaw the geometric design of road alignments and profiles using AutoCAD Civil 3D, including signing, marking, and construction staging plans.
- Directed the creation of superelevations and earthwork cross-sections, ensuring compliance with applicable standards and project specifications.
- Supervised the production of detailed shop drawings and steel bar bending schedules for bridges, retaining walls, and box culverts.
- Managed shop drawing submission lists and material tracking lists to monitor project progress and control workflow.
- Verified quantities and approved subcontractor and vendor invoices, ensuring cost control and contractual compliance.

Project Technical Manager - RIO Trading & Contracting Co. (Aug 2007 - Oct 2015 / Saudi Arabia)

- Directed planning, design, and execution of major infrastructure projects, including highways, tunnels, bridges, and municipal networks, managing multidisciplinary teams and ensuring compliance with scope, budget, and schedule.
- Designed geometric road alignments and profiles using AutoCAD Civil 3D, including signing, marking, and construction staging plans, as well as superelevations and earthwork cross-sections.
- Oversaw preparation of shop drawings for tunnels, bridges, retaining walls, box culverts, and municipal networks, and managed material tracking and procurement.
- Verified quantities, approved subcontractor/vendor invoices, and prepared monthly interim payment certificates and final as-built documentation for client handover.
- Prepared and secured approvals for final as-built drawings to close out projects successfully.

Site/Technical Office Engineer - RIO Trading & Contracting Co. (Sep 2002 - Jul 2007 / Saudi Arabia)

- Prepared construction drawings, quantity take-offs, and cost estimates for roads, bridges, and municipal infrastructure projects.
- Monitored on-site activities to ensure compliance with design, specifications, safety requirements, and project schedules.
- Coordinated with subcontractors, suppliers, and field crews to resolve design and construction issues.
- Provided technical support to the project manager and contributed to quality control reviews.

Toronto, ON / (647) 570 – 9101 / osman.abdullrazzaq@gmail.com

EDUCATION

- Master of Project Management in the Built Environment (PMBE) - Toronto Metropolitan University, (Toronto, ON, Canada, 2025)
- Bachelor of Civil Engineering - Jordan University of Science & Technology, (Irbid, Jordan, 2002)

CERTIFICATES

- Municipal Engineering – EPIC, 2020
- Autodesk Revit – Centennial College, 2020
- MicroStation / InRoads – Metro College, 2019
- AutoCAD Civil 3D, 2015
- Project Management Professional (PMP), 2014
