## Civil Engineer

+966 570525183 | +91 8129143945 | [ashiktheekenz@gmail.com](mailto:ashiktheekenz@gmail.com) | [LinkedIn](#) | Saudi Arabia

### PROFESSIONAL SUMMARY

---

Civil Engineer with 7+ years' experience in building, infrastructure, and modular construction projects across India and the GCC, including 2+ years delivering large-scale developments for NEOM, Saudi Aramco, Bechtel, and Larsen & Toubro. Proven expertise in project management, site supervision, QA/QC compliance, cost control, and stakeholder liaison, managing teams of 30–120+ personnel for projects up to SAR 45M and INR 40M. Proficient in AutoCAD, Revit Architecture, STAAD Pro, resource planning, and technical documentation to ensure on-time, within-budget, and quality-compliant delivery.

### PROFESSIONAL EXPERIENCE

---

**Project Engineer** | Expertise Contracting Co. Ltd., Jubail, Saudi Arabia | Oct 2023 – Present

Clients: NEOM Projects (NRC-17/18, NRC-19/20), Sindalah Non-Managerial Staff Accommodation (Bechtel, Hanmi Global, Al-Fanar Projects, AECOM, Arail)

- Managed modular accommodation projects covering over 45,000 m<sup>2</sup> of built-up area within NEOM.
- Managed a multi-disciplinary workforce of 120+ site personnel to ensure timely project delivery.
- Achieved 100% compliance with QA/QC standards during monthly client inspections.
- Reduced material wastage by 12% through improved procurement and site inventory control.
- Performed weekly safety audits, leading to a zero Lost Time Injury (LTI) record for the project phase.

**Civil Engineer** | Desert Sides International Contractors, Dammam, Saudi Arabia | Feb 2023 – Oct 2023

Clients: Saudi Aramco, Larsen & Toubro Saudi Arabia LLC, Nasser S Al Hajri Corporation, Khonaini International Co. Ltd, Denys Arabia

- Supervised construction works for three commercial projects, including office spaces and amenities buildings valued at SAR 45M+.
- Ensured on-time completion of key milestones, reducing potential delays by 15% through effective scheduling.
- Implemented QA/QC protocols that improved inspection pass rates from 88% to 97% within four months.
- Coordinated with Aramco-approved inspectors, ensuring compliance with Saudi Building Code and Aramco standards.
- Streamlined site reporting systems, cutting documentation time by 30% while enhancing accuracy.

**Senior Engineer – Project Coordination** | MDE Infrastructures Pvt. Ltd., Ernakulam, India | Jun 2021 – Feb 2023

Projects: Settlement Strengthening Works – Petronet LNG Kochi; Upgradation of New Central Calvathy HSS (CSML)

- Supervised the implementation of engineering solutions that improved structural stability by 20% and enhanced overall site safety compliance to 100%.
- Planned and managed project schedules and allocated resources for works valued at INR 40M+, ensuring 95% of milestones were achieved on time.
- Verified that all construction activities complied with current building codes and client specifications, achieving a 98% approval rate during quality inspections.

**Site Engineer** | Lee Builders & Developers, Ernakulam, India | Jan 2020 – May 2021

Project: Infrastructure Augmentation – Govt. Polytechnic College Kothamanagalam (KITCO)

- Directed on-site construction activities for projects worth INR 26M+, allocating manpower of over 80 workers to meet tight deadlines.
- Prepared 30+ bar bending schedules and detailed work programs, ensuring 100% alignment with structural and design specifications.
- Maintained accurate documentation for materials, labor hours, and progress reports, improving tracking efficiency by 25%.

**Civil Engineer** | Adithyan Constructions, Ernakulam, India | Jan 2018 – Dec 2019

Project: Ladies Hostel Building – College of Engineering Kidangoor (CAPE)

- Managed on-site construction activities for projects valued at INR 40M+, creating detailed schedules that ensured 95% of tasks were completed on time and within budget.
- Prepared and processed contractor bills totaling INR 35M+, while maintaining accurate progress documentation for client and regulatory reporting.
- Achieved 98% compliance rate in over 150 quality inspections, as documented in QA reports, through rigorous site supervision and adherence to structural specifications.

**Site Engineer** | V M Builders & Developers, Ernakulam, India | Jul 2016 – Dec 2017

Project: VM Qazr Maradu (Kundannoor)

- Delivered 1000+ m<sup>2</sup> project with zero non-conformities, as proven by quality inspection reports, through strict adherence to approved design specifications.
- Ensured 100% uninterrupted workflow, as documented in manpower logs, through timely material procurement and coordination of 30+ laborers.
- Enhanced decision-making speed by 20%, as shown in stakeholder meeting records, through accurate and timely progress reporting.

## SKILLS

---

- **Project Management:** Applied to plan, coordinate, and deliver civil and modular construction projects, ensuring on-time delivery within budget for GCC and India-based clients.
- **QA/QC Standards & Compliance:** Applied to ensure inspection approvals through site audits and quality checks.
- **Construction Site Supervision:** Applied to oversee daily operations for multi-disciplinary teams, ensuring adherence to design drawings, safety protocols, and milestone deadlines.
- **Resource & Manpower Planning:** Applied to allocate labor, equipment, and materials effectively, minimizing idle time and ensuring smooth project execution.
- **Cost Control & Budget Management:** Applied to manage project budgets through strategic procurement and inventory monitoring to avoid unnecessary expenses.
- **Safety Management (HSE):** Applied to maintain a safe work environment by conducting safety inspections, enforcing hazard control measures, and ensuring compliance with HSE guidelines.
- **Technical Documentation & Reporting:** Applied to prepare and manage progress reports, bar bending schedules, and billing documentation for client and regulatory requirements.
- **Applied AutoCAD, Revit Architecture, and STAAD Pro** to prepare and review construction drawings, validating structural integrity during design and execution stages of civil engineering projects.
- **Stakeholder & Client Liaison:** Applied to coordinate with contractors, consultants, and client representatives to facilitate communication, approvals, and project updates.
- **Leadership:** Applied to guide and coordinate multi-skilled teams, maintaining workflow efficiency and collaboration.
- **Problem-Solving:** Applied to address on-site technical and logistical issues through timely and practical solutions.
- **Attention to Detail:** Applied to identify and correct deviations from design specifications during site inspections.

## EDUCATION

---

**B.Tech in Civil Engineering** | KMEA Engineering College, Aluva – Mahatma Gandhi University, India (2012 – 2016)

## CERTIFICATIONS & LICENSES

---

- Licensed Engineer-A – Department of Urban Affairs, Kerala, India
- Saudi Driving License (Exp: 2033)

## LANGUAGES

---

- English • Hindi • Malayalam
