Location: Saudi Arabia

Date of Birth: 1995

Nationality: Palestinian

Marital status: Single

Saudi Driving Licenses: Valid

Professional Summary

I am a highly skilled Network Technician & Security Specialist with 7+ years of experience in network infrastructure, surveillance systems, and data center operations. Proficient in fiber optics installation, CCTV configuration, and network troubleshooting, ensuring optimal system performance and security. Adept at implementing structured cabling solutions, rack management, and security monitoring systems to enhance operational efficiency. Holds multiple certifications in EMS programming, ImVision, and OSHA safety standards, demonstrating a strong commitment to workplace safety and compliance. A detail-oriented problem solver with the ability to work in high-pressure environments, delivering reliable and scalable IT solutions.

Core Skills & Competencies

- Network Cabling & Fiber Optics Installation
- CCTV Installation, Configuration & Optimization
- NVR/DVR Programming & Storage Management
- UTP Cable Termination & Testing (Fluke)
- Data Center Cabinet Installation & Equipment Mounting
- Network Monitoring & Security Systems (EMS – UPS – CRAC – CCTV – Access Control)
- Rack & Cable Labeling for Documentation
- Troubleshooting & Performance Optimization

Professional Experience

Network Technician - January 2023– present

Tunsi Electronics and Computers – Jeddah, Saudi Arabia

- Installed and maintained structured **network cabling (fiber & UTP)** for clients.
- Configured and optimized **CCTV surveillance systems** for security solutions.
- Conducted **Fluke testing** and troubleshooting to ensure network integrity.
- Implemented **labeling standards** for organized cabling and rack management.

Security Technician - February 2022 – September 2022

Techno Stream – Riyadh, Saudi Arabia

- Installed and configured **access control & surveillance systems** for security projects.
- Managed **CCTV camera placement** and NVR storage optimization.
- Diagnosed and resolved **network connectivity** and security system issues.

Network Technician - December 2016 – January 2022

Tunsi Electronics and Computers – Jeddah, Saudi Arabia

- Installed and maintained structured **network cabling (fiber & UTP)** for clients.
- Configured and optimized **CCTV surveillance systems** for security solutions.
- Conducted **Fluke testing** and troubleshooting to ensure network integrity.
- Implemented **labeling standards** for organized cabling and rack management.

Network Technician - February 2016 – December 2016

Lighthouse Solutions for IT – Jeddah, Saudi Arabia

- Installed network infrastructure, including **data center cabinets and active components**.
 - Configured **firewalls, routers, and switches** to secure and optimize network performance.
-

Education

- **Diploma in Computer Networking** – Cisco, New Horizons Institute, Jeddah (2015)
 - **High School Diploma (Natural Sciences Section)** – AL-Noor Educational Complex, Jeddah (2013)
-

Languages

- **Arabic** – Native
 - **English** – Proficient (Reading, Writing, Speaking)
-

Certificates & Training Courses:

- Certificate in EMS Programming for Canovate
- Certificate in Programming imvision for CommScope
- Occupational Safety and Health registration – OSHA.
- Occupational Safety and Health Missions - OSHA
- Occupational Health – OSHA
- Hearing protection program - OSHA.
- Fire & Fire Extinguishers Program – OSHA.
- Fall Protection – OSHA.
- Safety in flammable and flammable liquids - OSHA.
- Fire Alarm and Detection Systems - OSHA.
- Escape routes - OSHA.
- Electrical safety - OSHA.
- Equipment guardrails - OSHA.
- Work safely indoors - OSHA.
- Forklift Safety Instructions - OSHA.
- Hazardous Chemicals Information Communications System - OSHA.
- Scaffolds - OSHA.
- Work and walking surfaces - OSHA.
- Safety in stairs and ladders - OSHA.
- Safety in welding work - OSHA.
- Safety in compressed gases and cylinders - OSHA.

- On-the-go-safety - OSHA.
- Lifting safety - OSHA.
- Hand tool safety - OSHA.
- Safety in excavation work - OSHA.
- Safety in shutting down power sources – OSHA
- Firefighting Course.
- First aid Course.
