## SKILLS

- FAMILIARITY WITH SOFTWARE PROGRAMS
  - Operating Systems: Microsoft Windows Professional, Useful Software: Microsoft Office (word2007- Excell2007 , PowerPoint2007), Professional, Engineering Software: Plaxis: Professional, Prokon: Professional , Sap2000: Professional
  - Chartered civil engineer
  - Static steel structures
  - Microsoft Project
  - Strategic design techniques
- 

## WORK HISTORY

### Construction supervisor

Eng. Yasser has extensive experience as a Construction Supervisor for infrastructure projects such as towers tunnels ,and also has a critical role that involves overseeing and managing various aspects of construction projects. He ensures that projects are executed efficiently, safely, and in compliance with all specifications, regulations, and timelines.

- Upheld highest quality standards in various tasks to achieve exceptional finished-project results.
- Utilized tools, machinery and equipment following safety measures.
- Prioritized tasks and adjusted schedules following good weather.

## **Project management-Civil/Structural Engineering Advisor and Construction Engineer, 2023 to Present**

### **Constructa Construction Co-S.P.C Manama**

- Role and Responsibilities
- **Project Coordination:** I worked closely with project managers, architects, and other stakeholders to ensure the smooth coordination of various project activities
- help in translating design plans into actionable tasks and ensure that work progresses according to the schedule
- **Construction Supervision:** I was responsible for overseeing the construction process on-site
- monitoring the progress of construction activities, ensuring compliance with design specifications, quality standards, and safety regulations
- **Resource Management:** I also managed resources such as labor, materials, and equipment efficiently
- track resource usage, minimize wastage, and ensure that the project stays within budget
- **Project Planning and Scheduling:** I was responsible for creating detailed project plans, defining tasks, estimating resources, and developing schedules that outline the sequence of construction activities
- ensure that timelines are realistic and achievable
- **Budget Management:** I also worked closely with project stakeholders to develop budgets for construction projects
- monitor expenditures, track costs, and implement cost-saving measures to keep the project within budgetary constraints
- **Team Leadership:** They lead and manage construction teams, including laborers, subcontractors, and other professionals
- This involves assigning tasks, providing guidance, and fostering a collaborative work environment

- Documentation and Record-Keeping: I also maintained accurate records of project-related documents, including plans, contracts, permits, and correspondence

### **Site Civil Engineer, Sharfi for Construction and Contracting 2003-2007**

- Project Planning and Management:
  - Assisting in the planning and scheduling of construction projects.
  - Coordinating with architects, engineers, and other stakeholders.
- Site Supervision:
  - Overseeing day-to-day site operations.

Ensuring that construction activities comply with the project's plans, specifications, and timelines.

### **Project management : LUAY ALMAHI for CIVIL ENGINEERING & CONTRACTING 2013-2015**

- Role and Responsibilities
  - Project Planning and Management:
    - Assisting in the planning and scheduling of construction projects.
    - Coordinating with architects, engineers, and other stakeholders.
  - Site Supervision:
    - Overseeing day-to-day site operations.
    - Ensuring that construction activities comply with the project's plans, specifications, and timelines. Site Engineers must be adept at identifying problems and finding practical solutions to keep the project on track.

## EDUCATION

- **M.Sc. degree** **University of Khartoum** - Khartoum /2002-2004

scholarship as an exceptional student-Honors Degree.

- **B.Sc in Civil Engineering** /Sinnar University /Sinnar State - Sudan/1994-1999
- **PMP Certificate** from PMI (USA)/2020-2026

## PROFESSIONAL AFFILIATIONS:

- American Society of Civil Engineering (ASCE)
- Council for Regulating the Practice of Engineering Professions -Grade-B -(CRPEP)
- Institution of Engineering and Technology (IET)-London-UK
- Sudan Engineers Association (SEA)
- Jordan Engineers Association (JEA)
- Arab Engineers Association (AEA)
