EXPERIENCE

Senior Architect

Janapriya Nirmaan Conglomerate Pvt.Ltd

05/2023 - 03/2025 Hyderabad, India

- Spearheaded design collaboration with architects and engineers for residential villas, high-rise buildings and luxury resort, based on client requirements and project brief.
- Ensured compliance with local building codes, municipality regulations, fire safety and accessibility standards.
- Created 3d renderings using SketchUp & Vray rendering software which enabled clients to visualize potential outcomes from different design options.
- Prepared complete architectural shop drawings (plans, sections, elevations, details etc.)
- Review and approve shop drawings, material submittals and mock-ups.
- Coordinated with Civil, Structural, MEP, Landscape and irrigation consultants and vendors to enhance project flow, while integrating sustainable materials.
- Conduct site inspections and issue site instructions or non-compliance reports (NCR's).
- Ensure the contractor follows the approved IFC drawings.
- Collaborate with QA/QC team to ensure quality of architectural & interior works on site.

Senior Architect

90 Degrees Projects

03/2015 - 06/2022 Hyderabad, India

- Led the design process of multiple high-profile projects, ensuring adherence to established standards and regulations.
- Designed and executed luxury interior spaces for residential and corporate clients, enhancing aesthetic appeal and user experience.
- Prepared comprehensive floor plans, sections and elevations for residential and office projects, utilising Autocad, Sketchup, Vray and Photoshop to enhance design accuracy and client satisfaction.

Project Architect

Arabian Consulting Engineering Center Co.

04/2012 - 04/2014 Al Khobar, Saudi Arabia

- Prepared the design of bespoke villas for Saudi Chevron Co., and security buildings for KJO, creating tailored designs improving client satisfaction.
- Created comprehensive layouts, including detailed floor plans, sections, and elevations, 3D views thereby enhancing project clarity and ensuring effective collaboration among stakeholders.
- Participated in weekly meetings with Mep, Struc. and Telecommunication contractors, fostering effective collaboration and identifying solutions that streamlined project timelines and enhanced operational efficiency.
- Led a team of AutoCAD draftsmen and 3D visualizers in crafting innovative design concepts, resulting in the successful completion of projects that exceeded company standards.
- Independently handled the development of final advanced engineering design drawings.

SUMMARY

- Detail-oriented architect with over 14 years of experience (including 2 years in Saudi Arabia) in architecture and interior design, specialized in creating innovative and sustainable solutions for residential and commercial projects.
- Proven ability to lead and coordinate multi-disciplinary teams from concept through construction while balancing aesthetics, function and budget.
- Skilled in Autocad, and proficient in 3d modelling using Sketchup, Vray, Revit and Photoshop.
- Energetic employee, well versed in strong communication and organizational skills.
- Eager to leverage skills in a dynamic engineering team to drive impactful architectural designs.

EDUCATION

Bachelor of Architecture

Jawaharlal Nehru Technological University

05/2003 - 06/2008 Hyderabad, India

SKILLS

Architectural Planning

Interior Design

3D Modelling

Vray Rendering

Construction Documents

Material Selections

Drafting

Site Coordination

Team Management

Client Interaction

SBC Codes

Design Review

Construction Oversight

SOFT SKILLS

Autocad, Sketchup, Vray, Photoshop, Revit & MS Office

EXPERIENCE

Project Architect

90 Degrees Projects

🏠 02/2011 - 02/2012 📍 Hyderabad, India

- Developed precise AutoCAD plans and 3D Google SketchUp elevations, decreasing project timelines and boosting client satisfaction with tailored design features.
- Reviewed shop drawings submitted by contractors for compliance with specifications and code requirements.
- Coordinated with contractors, consultants, clients and stakeholders to ensure design requirements were met.

Junior Architect

At Edge

🏠 06/2008 - 12/2010 📍 Hyderabad, India

- Spearheaded drafting and material research for projects, elevating presentation quality and empowering senior team members with targeted support through innovative insights.
- Modified drawings based on feedback from senior architects and clients.
- Implemented site changes to adapt evolving site conditions, resulting in enhanced project efficiency and minimized delays.
- Document observations and report issued to project managers.
