## EXPERIENCE

**Welder Fabricator** 2023 - Present

**Lotus Innovations (Design & Build)** Riyadh, KSA

Currently working as a Welder Fabricator at Lotus Innovations (Design & Build) since 2023, where I am involved in the fabrication and installation of metal structures and fittings for major commercial projects, including KFC, Pizza Hut, Hardee's, and Krispy Kareem outlets. My responsibilities include reading and interpreting technical drawings, performing MIG and TIG welding, and ensuring high-quality finishing of stainless steel and mild steel components. I work closely with project teams to meet strict deadlines and quality standards, contributing to the successful completion of interior and exterior metal works for renowned food chains.

**Machine Tool Operator** 2020 - 2022

**Al-Taqwa Metal & Iron Workshop** Ajman, UAE

Worked as a Machine Tool Operator at Al-Taqwa Metal & Iron Workshop from 2020 to 2022, where I operated and maintained various metalworking machines including grinders and milling machines. Responsible for precise shaping, cutting, and finishing of metal components according to technical drawings and specifications. Ensured equipment was functioning properly through regular maintenance and adhered strictly to safety and quality standards to support efficient workshop operations.

**Welder Fabricator** 2016 - 2019

**China Railway Group Limited** Lahore, Pakistan

Worked as a Welder Fabricator at China Railway Group Limited from 2016 to 2019 on the Lahore to Multan Motorway Project. Responsible for performing high-precision welding and fabrication tasks on structural components and equipment used in the motorway's construction. Ensured adherence to safety standards, project specifications, and quality requirements. Collaborated with engineers and construction teams to complete welding tasks efficiently, contributing to the successful and timely completion of the large-scale infrastructure project.

**Welder Fabricator** 2010 - 2016

**Al-Shams Welding Works** Islamabad, Pakistan

Worked as a Welder Fabricator at Al-Shams Welding Works from 2010 to 2016, where I specialized in welding, cutting, and fabricating metal structures for various residential, commercial, and industrial projects. Skilled in using welding equipment, reading technical drawings, and ensuring precision and durability in all fabricated components. Maintained a strong focus on safety and quality, consistently meeting client requirements and project deadlines.

## PERSONAL INFORMATION

Date of Birth : 15-10-1989

Nationality : Pakistani

Passport : HS1010893

## EDUCATION

### Matric

BISE Lahore

2005
