CIVIL ENGINEER

Dedicated and detail-oriented Site Civil Engineer with 8 years of hands-on experience in roadworks, construction, and finishing projects. Proven track record in executing and supervising site operations with a strong focus on quality, safety, and timely delivery. Skilled in quantity surveying, project planning, and site supervision, with the ability to lead teams effectively and resolve conflicts efficiently. Adept at coordinating with stakeholders, managing resources, and ensuring compliance with design specifications and project standards. Committed to delivering high-performance engineering solutions in fast-paced, deadline-driven environments.

KEY COMPETENCIES

- Road construction
- Finishing & Structural Works
- Cost Control & Budget Monitoring
- Quality control & assurance
- Quantity Surveying & BOQ Review
- Inspection & supervision
- Project Planning & Scheduling (Ms project)
- Site Supervision
- Conflict Resolution
- Time Management
- Review of structural designs
- Non-conformance reports (NCR) & corrective actions
- Attention to details
- AutoCAD
- Revit structure
- MS project
- Excel

EDUCATION & CERTIFICATIONS

- **Bachelor of Science in Civil Engineering Kafr El-Sheikh University – Egypt**
- year : (2017)
- Grade : (very good)
- **Professional Civil Engineer Diploma – Eng. Hassan Kandil**
- **Revit Structure Course – Autodesk**

ADDITIONAL INFORMATIONS

Languages : Arabic, English

PROFESSIONAL EXPERIENCE

❖ **Saleh Nasser Al-Khelaiwi Sons Company, saudi arabia** **July 2023 - Present**
senior engineer

- ❑ **Urban Road Humanization Project – Madinah, Saudi Arabia - Al-Madinah Municipality**
 - Complete supervision and delivery of road humanization works within schedule.
 - Managed a team of 2 civil engineers, 1 surveyor, and 2 site inspectors.
