ENGINEER | NEBOSH Certified

Proactive and Accomplished EHS Engineer with over 8 years of expertise in managing complex projects, driving EHS compliance, and fostering a culture of safety excellence. Certified in **NEBOSH, OSHA, Environmental management and LEED Green Associate**, with proven capabilities in **policy development, risk assessment, behavior-based safety, and regulatory compliance**. Skilled at conducting **Job Safety Analyses (JSAs), developing risk mitigation plans, and implementing safety documentation and reporting mechanisms**.

Currently managed EHS protocols for **TAMER Logistic Park**, ensure compliance with national and international standards while integrating sustainability objectives in collaboration with LEED representatives. Spearheaded **safety training programs**, enhanced worker engagement, and implemented **PPE compliance, behavior safety initiatives, and emergency response systems**, maintaining zero-incident records.

Successfully achieved **11 million safe man-hours** during the **IBN-E-SINA Expansion Project** and consistently upheld zero-accident policies across high-stakes projects like **MY CLINIC**. Demonstrate exceptional leadership, strategic planning, and communication skills to align EHS objectives with operational success.

CORE COMPETENCIES

- **Policy Development and Implementation:** Designing, implementing, and monitoring EHS policies to meet compliance standards.
- **Risk Assessment and Management:** Conducting Job Safety Analyses (JSA), identifying hazards, and implementing risk mitigation strategies.
- **Behavior-Based Safety:** Promoting safety culture through training, awareness programs, and active worker engagement.
- **EHS Standards and Compliance:** Ensuring adherence to ISO 9001, 14001, 45001, and ILO safety regulations.
- **Safety Documentation and Reporting:** Preparing comprehensive safety plans, incident reports, and regulatory documentation.
- **Training and Development:** Conducting tailored safety training sessions to enhance on-site practices and team competencies.
- **Project Safety Planning:** Developing and executing safety plans specific to project needs and operational goals.
- **Emergency Preparedness:** Implementing fire protection, first aid, and confined space safety protocols.
- **Walkthroughs and Housekeeping:** Conducting regular site inspections to ensure compliance and maintain cleanliness standards.
- **PPE Management:** Ensuring inventory, compliance, and proper usage of personal protective equipment.
- **Sustainability Integration:** Collaborating with LEED representatives to align environmental and sustainability objectives.
- **Communication and Leadership:** Building strong relationships with stakeholders and leading teams to achieve safety excellence.

Nationality: Pakistani • **Date of Birth:** 2nd Feb 1990 • **Driving License:** Valid Driving license.

PROFESSIONAL EXPERIENCE

Petro Rabigh – Shutdown Project

Position: Safety Representative

Duration: May 10, 2025 – Present

Assigned as a Safety Representative for Petro Rabigh’s shutdown project, ensuring strict compliance with ARAMCO and OSHA safety standards during critical shutdown activities. Actively engaged in maintaining high-level HSE standards under tight operational deadlines.

Key Responsibilities:

- Conduct daily Job Safety Analyses (JSAs) for shutdown tasks including mechanical, electrical, and confined space activities.
- Ensure full compliance with ARAMCO Work Permit System and LOTO (Lockout/Tagout) protocols.
- Monitor and enforce Life Saving Rules (LSR) and critical activity procedures.

- Lead daily toolbox talks and safety awareness briefings for multi-national workforces.
- Coordinate with maintenance and operation teams to ensure safe execution of shutdown jobs.
- Inspect PPE usage, scaffolding standards, hot work safety, and fire watch readiness.
- Maintain detailed safety documentation and daily reports in accordance with client and company requirements.
- Support emergency drills and ensure readiness of firefighting and first aid measures.

Maher Hassan Al-Maghamasi Contracting Co.

Position: Safety Lead

Project 1: My Clinic Riyadh (Completed)

Project 2: TAMER Logistic Park, Sulay, Riyadh

Duration: December 2019 – January 2025

Led EHS operations to meet client goals and uphold national and international standards at high-profile sites. Maintained full coordination with LEED representatives from ALPIN Consultants to align with sustainability and safety objectives.

Key Responsibilities:

- Enhanced workplace safety culture through daily toolbox talks, training sessions, and visual safety aids.
- Ensured high worker engagement and compliance with EHS protocols.
- Advocated for safety at top management levels and promoted a zero-incident environment.
- Organized safety-focused meetings, seminars, and workshops.
- Developed weekly action plans to ensure targeted, proactive safety activities.
- Promoted First Aid and welfare facilities on-site to ensure immediate emergency response.

Leadership & Teamwork:

- Employed an energetic, participative leadership style to encourage accountability and motivation.
- Built cross-functional teams with strong supervision and cultural sensitivity.
- Supported both independent work and collaborative efforts to elevate EHS performance.

Communication & Interpersonal Skills:

- Acted as a strategic link between EHS teams and other departments.
- Drafted reports, documentation, and professional correspondence.
- Upgraded EHS standards and practices to safeguard workers, assets, and the environment.
- Fostered an open culture for reporting unsafe acts and investigated root causes of incidents.
- Promoted consistent application of safety rules and disciplinary procedures for violations.

Skylines Construction and Industrial Services

Position: Safety Engineer

Duration: April 2016 – June 2019

Recognized as a top-performing asset through a consultative, systematic approach to safety. Worked on prestigious sites including IBN-E-SINA Plant, Al-Bayroni / SAFCO Fertilizer Plant, SADAF Extension, SAHARA Plant, SHARO, YANSAB, and YANPET Plants.

Key Responsibilities:

- Conducted audits to assess safety program effectiveness.
- Delivered safety briefings and built awareness around site hazards and reporting.
- Created innovative safety pitches and detailed EHS plans and documentation.
- Engaged directly with site workers to improve safety reporting and compliance.
- Held regular toolbox talks and ensured PPE compliance.
- Oversaw implementation of ISO 9001, 14001, 45001, and ILO standards.
- Recommended and implemented safety plans based on client-specific policies.
- Monitored and analyzed incident trends to allocate resources effectively.
- Maintained daily logs and site activity records.

Training & Compliance:

- Led site-wide safety training including fire safety and first aid.
- Ensured availability and correct usage of PPE on site.
- Enforced work permit systems and LIFE SAVING RULES (LSR).
- Mentored junior safety personnel and supported their development.
