# Ammar Saban Al-Asmari

To benefit from my practical experience with full operational confidence for more than **10** years:

- Experience and familiarity with all details of company establishment, transfer, amendment of articles of incorporation, restructuring, conversion of companies, and closure.
- Management of government platforms for companies and institutions such as Muqem, Quwa, Etimad, Balady, Absher Business, Zakat and Income, Saber, Fasah, Saudi Customs, product certification, and sea and air shipping.
- Detailed and accurate knowledge and pricing of advertising projects, road signage boards, and implementation of advertising projects for government entities, with pricing experience from **2005** to the present.
- Confident and capable knowledge, by the grace of God, of computers and the use of accounting software, human resources, network development, and technical subscriptions.
- Proficient and skilled in Adobe design programs (Illustrator, Photoshop, InDesign, After Effects) with expertise reaching up to **80%** of accumulated experience.
- Experience operating Roland printers and advanced digital printers, and using all machines dedicated to printing, from paper cutting to booklet packaging to all types of printing, including secure certificates with protected stamps.

# **Ammar Saban Al-Asmari**

- Project management and execution, handling work pressures, timely completion and delivery, submitting financial claims, and preparing project reports with photos and aerial photography using the DJI Mavic 3 Classic drone, specialized for surveying, site photography, urban planning, and monitoring projects and security sites

## **❖ The story of my resignation and my transfer to the southern region:**

**Reasons for my resignation from the Eastern Province and leaving work there after 15 years to please my mother, and the reason for choosing the Peninsula Company was by chance. My mother saw the company's logo on equipment at the Aqabat Ballasmar project and said, "Why don't you work for this company? Submit your application, and by God, the location..." Perhaps it was a coincidence better than thousands of appointments.**

- Wishing you well...
