Civil Engineer with over 6 years of experience in site execution, project coordination, and planning support for commercial and residential developments. Holds a Master's degree in Construction Management, with strong practical knowledge of construction workflows, subcontractor management, billing processes. Proficient in Primavera P6, MS Project, and construction documentation, with experience supporting progress tracking, look-ahead planning, and reporting for management and client meetings. Currently aiming to build a career path in project planning and controls, combining field experience with technical planning skills to support efficient and timely project delivery.

PROFESSIONAL EXPERIENCE

Organization: **GULF LINK CONSTRUCTION, Al-Khobar, KSA**

Tenure: Aug 2024 to Date

Designation: Site Engineer

GULF LINK

Responsibilities:

- Oversee daily site execution activities to ensure timely and quality delivery of high-rise commercial and residential construction works.
- Coordinate with subcontractors, monitor work progress, and ensure compliance with project specifications and safety standards.
- Prepare and manage subcontractor bills, ensuring accuracy in measurements and verification against actual work completed.
- Generate and process Material Requests (MRs) for site requirements, maintaining alignment with project budgets and schedules.
- Support the planning department in updating schedules, preparing progress reports, and tracking project milestones using tools like Primavera P6 or MS Project.
- Conduct routine site inspections and coordinate with QA/QC teams to ensure adherence to quality standards and construction best practices.
- Liaise with consultants, clients, and internal departments to resolve technical issues and ensure smooth workflow on-site.
- Maintain detailed daily progress reports, monthly progress reports for management review.
- Participate in monthly billing, documentation, and reporting for internal and client-side project management.

Projects in Progress:

- Wave Tower, Al-Khobar
- Diamond Square, Al-Khobar

Project: **EMAAR – The Views Towers (G+44 & G+32) | (120 million USD)**
Organization: Paragon Constructors Pvt. Ltd, Karachi, Pakistan
Tenure: August 2023 to April 2024
Designation: Assistant Construction Manager

Responsibilities:

- Prepared detailed Bar Bending Schedules (BBS) for structural elements in line with project drawings and specifications.
- Developed Shop Drawings for steel reinforcement, ensuring compliance with project standards, construction codes, and client requirements.
- Conducted regular site visits to verify proper implementation of reinforcement works and coordinated with the execution team for timely progress.
- Supported quality checks and coordination to resolve discrepancies between drawings and site conditions.
- Assisted in resolving technical queries and design conflicts by coordinating with consultants and site teams, ensuring uninterrupted workflow and compliance with structural intent.

Project: **Grove Residency (G+30, G+25, G+23) | (8.1 million USD)**
Organization: Paragon Constructors Pvt. Ltd, Karachi, Pakistan
Tenure: September 2021 to August 2023
Designation: Assistant Construction Manager

Responsibilities:

- Prepared and presented comprehensive performance overview reports, including Progress Reports, Look-Ahead Schedules, and Catch-Up Plans to track project milestones and address delays.
- Created detailed planning reports for internal management and client meetings, supporting data-driven decision-making and transparency.
- Coordinated day-to-day project activities, ensuring alignment between clients, contractors, and subcontractors to meet technical specifications and deadlines.
- Conducted regular site inspections to monitor work quality, assess material usage and manpower allocation, and ensure compliance with safety and quality standards.
- Assisted the Senior Planning Engineer with project scheduling, resource planning, and tracking of baseline and revised schedules using tools like Primavera P6.
- Supervised grey finishing works, ensuring execution met quality and timeline expectations, and reported directly to the Project Manager.
- Identified and reported potential conflicts and delays, helping to mitigate risks that could impact overall project progress.

Organization: **Patsa Pakistan Pvt Ltd (Millwala Groups), Karachi, Pakistan**
Tenure: Sep 2020 to Sep 2021
