- Saudi Arabia - Central Region

EDUCATION

Bachelor degree of Architectural Engineering - 2018-2022
University of Prince Muqrin
First Class Honor, GPA - 3.8\4-0

SOFTWARE

- Revit
- Autocad
- Lumion
- Sketchup
- Illustrator
- Indesign
- Photoshop
- Microsoft
- D5 render

SKILLS

- 3D Modeling.
- Animated visualization design video.
- BIM.
- Technical drawings.
- project coordination.
- Hardscape and Softscape.
- Saudi Building Code.
- BOQ.
- Plant selection.
- Graphic Presentation.

LANGUAGES

Arabic - Native
English - Fluent

CERTIFICATIONS

- Saudi Council of Engineers.
- Best Strategies for Biophilic Design
- 8th Research Competition – Abu Dhabi University (Green Concrete)
- Advanced Revit | Photoshop | Adobe Illustrator.
- A.I in Architecture.
- Soil and Surface Types.

NOUR AHMAD ALHAJJI

ARCHITECTURAL ENGINEER-LANDSCAPE

Architectural Engineer with a solid background in landscape design, green area, building coordination, 3D visualization, and detailed design. Proficient in developing comprehensive layouts using Revit within a BIM environment, ensuring seamless coordination between architecture and other disciplines. Experience in preparing full documentation including BOQs and technical drawings. Highly skilled in transforming conceptual ideas into realistic 3D renderings and animated visual presentation that effectively communicate design intent. Passionate about enhancing public spaces through creative, sustainable, and visually compelling landscape solutions.

WORK EXPERIENCE

Landscape Architect | Jan 2023 – Aug 2025.

- Developed landscape concept design for various urban and public projects.
- Created detailed landscape design drawings for multiple landmark projects across Saudi Arabia .
- Prepared comprehensive landscape design packages, including softscape, hardscape, site furniture, planting and material selection.
- Produced realistic photo renders and animated video presentations for client reviews.
- Prepared Bill of Quantity (BOQ) and coordinated with suppliers for material specifications.
- Collaborated with municipalities on the design of landscape sidewalk, roads and parks, successfully incorporating client preferences into final deliverable.
- Prepared and presented graphic presentation to key stakeholders to gain approval.
- Skilled in the preparation of schematic design plans and illustrative concept.

Key Projects:

- Al-Kharj- Uthman bin Affan Road: urban landscape development and create a public green area to serve users.
- Hail: Full landscape design and public spaces for multiple whole district.
- Jazan: green spaces and parks design.
- Riyadh: landscape design and drawings revision.
