

# BESHOY MOUNER FARES BOKTOR

## SENIOR STRUCTURE & CIVIL ENGINEER

Nationality: Egyptian | [Beshoyfares94@gmail.com](mailto:Beshoyfares94@gmail.com) | +966 597750319

---

### SUMMARY

Dynamic Construction Manager & Civil Engineer with over 11 years of experience in construction management, civil engineering, and project management. Proven expertise in overseeing large-scale construction projects, including refinery tank foundations, underground utilities, substation construction, and building projects. Skilled in budgeting, scheduling, cost control, quality control, and ensuring compliance with safety and regulatory standards. Adept at leading diverse teams, providing technical guidance, and managing multiple projects simultaneously to ensure successful project delivery on time and within budget.

### EDUCATION

---

#### Bachelor of Civil Engineering

2014

Faculty of Engineering 15th of May Higher Institute

- Graduation Project: Management
- Grade: Very Good

### PROFESSIONAL EXPERIENCE

---

#### SENIOR STRUCTURE ENGINEER

Apr 2022 – Sep 2025

MAXIMIZE Construction, New Entity Nationality, Latin District ,  
New Alamein City, Egyptian

- **Projects:** Residential buildings (Finishing & Concrete works)
- Managed the entire lifecycle of construction projects, including planning, budgeting, and scheduling, ensuring on-time delivery and cost control.
- Led and coordinated a construction team, overseeing activities such as site inspections, quality control, and adherence to safety protocols.
- Worked closely with contractors, subcontractors, and suppliers to ensure efficient resource allocation and smooth project execution.
- Monitored project progress and implemented corrective actions to address any delays, ensuring alignment with project timelines and budgets.
- Prepared and submitted regular project reports detailing progress, costs, and timelines to senior management and clients, ensuring transparent communication
- Oversaw all on-site construction activities, ensuring compliance with local building codes, safety regulations, and technical specifications.
- Supervised the construction team, ensuring efficient workflow, proper use of resources, and adherence to project schedules and budgets.
- Coordinated with architects, engineers, and contractors to resolve technical challenges and optimize design solutions for the project.
- Implemented quality control measures through regular site inspections to ensure all work met the required engineering standards.
- Monitored the project budget, identified potential cost savings, and maintained efficient resource allocation across various project phases.

## **TEAM LEADER CIVIL ENGINEER**

**Mar 2021 – Apr 2022**

Larsen & Toubro Limited, Kuwait

- **Project:** 132/11 KV Substations, South Abdullah Mubarak, Kuwait
- Led the civil engineering activities for the construction of 132/11 KV substations, ensuring compliance with engineering and regulatory standards.
- Coordinated with contractors, subcontractors, and stakeholders to ensure smooth project execution and minimize delays.
- Monitored project costs and resource allocation, ensuring adherence to budgets while maintaining quality and safety standards.
- Conducted site inspections to ensure work was completed in accordance with construction plans, design specifications, and quality standards.
- Managed communication with project stakeholders, providing regular updates on progress, costs, and schedule changes.

## **SENIOR ENGINEER - CIVIL**

**Nov 2017 – Feb 2021**

KCCEC for General Trading & Contracting, Kuwait

- **Project:** Al Zour New Refinery Project, PKG 4
- Supervised the construction of storage tank foundations, underground pipelines, manholes, and shelter foundations for the Al Zour New Refinery project.
- Managed project planning and resource allocation, ensuring that all activities adhered to safety regulations, engineering standards, and quality requirements.
- Coordinated with various teams, including contractors, subcontractors, and engineering teams, to resolve technical and logistical challenges.
- Ensured cost control by monitoring project spending and identifying opportunities for cost savings while maintaining quality and safety.
- Provided technical support to the construction team, ensuring all construction activities complied with engineering principles and regulations.

## **PROJECT ENGINEER - CIVIL**

**Feb 2016 – Jul 2017**

Orascom for General Trading & Contracting, Egypt

- **Project:** El-Masa Hotel, New Capital, Egypt
- Led a team of 350+ workers in the construction of the El-Masa Hotel, managing all on-site operations, including night shifts, heavy machinery, and concrete pouring (50,000 m<sup>3</sup>).
- Supervised the construction of a 7,000 m<sup>2</sup> basement, ensuring quality control and adherence to safety protocols and technical specifications.
- Coordinated with subcontractors and upper management to ensure smooth project execution, resolving any issues that arose on-site.
- Monitored the project timeline, ensuring activities were completed on schedule and within budget.
- Prepared daily progress reports to track work completion, safety compliance, and cost management.

## **PROJECT ENGINEER - CIVIL**

**Oct 2014 – Oct 2015**

Gardenia Talat Mostafa Group, Egypt

- **Project:** Apartment Complex (1000 Units), Client: Ministry of Housing, Egypt
- Managed manpower, materials, and equipment for the construction of a 1,000-unit apartment complex, ensuring quality control throughout the project.
- Coordinated with subcontractors and vendors to ensure timely delivery of materials and services.
- Conducted regular quality checks and site inspections to ensure all work met engineering standards and regulatory compliance.
- Prepared quantity calculations, BOQ, and reviewed subcontractor invoices to ensure accurate cost management.
- Maintained strong communication with the Ministry of Housing, clients, and stakeholders to manage expectations and resolve project-related issues.

## CERTIFICATIONS & TRAINING

---

- Project Management Professional (PMP), PMI
- OSHA Academy General Industry Safety and Health Certificate
- OSHA Academy Construction Safety and Health Certificate
- Risk Assessor Course Certificate, National Training Services
- Fire Marshal's Course Certificate, National Training Services
- LINE OF FIRE (LOF) Certificate, KIPIC AL Zour Refinery Project
- Fire Prevention and Fighting Certificate, KIPIC AL Zour Refinery Project
- First Aid Training Certificate, SIPEM Standards at KIPIC AL Zour Refinery Project
- SAP – Ministry of Defense Information Systems Institute
- AutoCAD 2D – Cairo University
- Primavera P6 – Cairo University
- Site Engineer Diploma – Civil Structure Center
- Training at Egypt Air Holding Company (General Administration for Planning and Training Development) Training at The Arab Contractors (Training Institute for Management and Technology)

## SKILLS

---

### Technical Skills

- Project Management: Expertise in planning, scheduling, and cost control. PMP certified.
- Civil Engineering: Skilled in designing and overseeing infrastructure projects (roads, bridges, foundations).
- Structural Engineering: Proficient in concrete, steel, and composite design using AutoCAD, and SAP.
- Construction Management: Experienced in site supervision, budgeting, risk management, and using Primavera P6.
- Safety Management: Knowledgeable in OSHA standards, safety audits, and emergency preparedness.
- Software Skills: AutoCAD, Primavera P6, SAP, Microsoft Office Suite, Procore.
- Cost Control: Budget management, contract negotiations, and financial reporting expertise.

### Soft Skills

- Leadership: Strong team management, mentoring, and cross-functional collaboration.
- Communication: Excellent verbal/written communication with clients, stakeholders, and teams.
- Problem Solving: Ability to analyze issues and develop effective solutions quickly.
- Time Management: Skilled in prioritizing tasks and meeting project deadlines.
- Client Relations: Proven experience in managing client expectations and maintaining relationships.
- Negotiation: Strong conflict resolution and contract negotiation skills.
- Attention to Detail: Ensures accuracy in documentation, design, and safety compliance.
- Adaptability: Flexible in adjusting to changing project requirements and environments.
