Profile Summary

Highly accomplished QA/QC Inspector with 6+ years of diverse experience in the construction industry, spanning infrastructure, commercial, residential, industrial, and public projects. Project Includes Riyadh Metro (ANM & BACS) Qiddiya (Water Theme & Speed Parks), Al-Ajlan Tower (Concrete Repair of 23 Stories), Al-Nahda Entertainment Complex and Medical Village projects. I hold a Bachelor in Arts, a 3-year Diploma in Civil Engineering Technology, and a Master of Project Management in Construction, providing a solid foundation in both technical and managerial aspects of construction projects.

Adept at preparing and implementing quality documents such as method statements, ITPs, materials approvals, inspection requests (MIRs & WIRs), quality related compliance reports (SORs & NCRs) and their related logs.

Key Skills

- Attention to Details
- Site Supervision
- QA/QC Compliance
- Engineering Concepts
- Construction Audits
- HSE Compliance
- Work Under-Pressure
- Project & People Management
- Cost Control & Variance Analysis

Work Experience

QA/QC Inspector-Civil | Saudi Concrete Technique Company – Riyadh

March 2023 – Present (**Major Projects;** Riyadh Metro, Qiddiya, Al-Nahda & Medical Village)

- Supervise day to day construction activities on-site to ensure compliance with approved ITP, project quality plan and quality standards.
- Follow site activities/progress on daily basis to document and raise WIR/RFI/IR & MIR for next day inspection.

- Monitor the third party NDT tests/activities and reviewing the reports.
- Participate in the review of NCRs & SORs (Non-Conformance Reports & Site Observation Reports) issued by internal management or the consultant and support the close-out process, ensuring corrective and preventive actions are effectively implemented as per approved MST.
- Keep reporting all inspections, test results and other deviations if any to QA/QC head on time.

QA/QC Inspector | Munsif Mansoor Construction Company – Pakistan

Jan 2022 – Feb 2023 (**Major Projects**; US-AID School Buildings & SZAB Law College)

- Inspected and monitored structural works, including formwork, reinforcement, concrete pouring, and structural steel activities to ensure compliance with design and quality standards.
- Supervised finishing works such as block masonry, plastering, tiling (marble, granite, and ceramic), waterproofing, painting, false ceiling, joinery, and façade works.
- Reviewed and maintained QA/QC documentation, including inspection requests (WIR & MIR), checklists, test reports, NCRs, and corrective action records.
- Ensured all construction activities were carried out in accordance with approved drawing project specifications, and international standards (ACI, ASTM, BS, etc.).

Site Inspector-Civil | Saadullah Khan & Brothers (SKB) – Pakistan

Sep 2020 – Dec 2021 (**Major Project**; Shahbaz Airbase)

- Supervised and inspected all civil and structural construction activities, including excavation, subgrade preparation, compaction, and concrete works for roads, culverts, and building structures.
- Verified that materials and workmanship met project specifications and international standards (ASTM, ACI & BS).
- Coordinated daily inspections with the QA/QC department and consultants, ensuring all works were completed as per approved ITPs and method statements.
- Assisted in verifying survey levels and alignment before and after construction to maintain accuracy in finished work.
- Checked road layers such as sub-base, base course, and asphalt paving to confirm compliance with design levels, density, and material requirements.

Civil Inspector | M Azeem-uddin Traders – Pakistan

Feb 2019 – Aug 2020 (**Major Project**; Smart City Residency & OPF Housing Scheme)

- Supervised and inspected infrastructure and building works for the gated community, including roads, drainage networks, boundary walls, villas, and utility services.
- Monitored earthworks, subgrade preparation, and concrete works for foundations, pavements, retaining structures, and utility chambers.
- Coordinated closely with site engineers, surveyors, and subcontractors to maintain construction quality and progress.

- Oversaw finishing activities, such as block masonry, plastering, painting, and external façade works.
- Coordinated with QA/QC engineers to ensure all works followed approved ITPs, method statements, and quality control procedures.

Education

Master of Project Management (MPM, PMI Accredited), 2023 | SZABIST University, Pakistan

Diploma of Associate Engineer (DAE Civil Technology) 2018 | Sindh College of Commerce & Technology, Pakistan

Bachelor of Arts (BA), 2015 | Shah Abdul Latif University, Pakistan

Certifications

- ISO-9001:2015 Quality Management System – (CQI-IRCA Certified) – 2025
- ASNT NDT Level II (VT, UT & MT) (General & Practical Exams Passed) – UKBCC Training & Consultancy – 2025
- Managing Project Risks & Changes – University of California, US – 2023
- Construction Management (Specialization) – Columbia University, US – 2023
- Sustainable & Quality Infrastructure – Asian Development Bank – 2022

Technical Skills

- MS Office (Excel, Word, PowerPoint)
- Aconex (Certified Professional)
- Primavera P6
- AutoCAD

Additional Information

- Transferable Iqama (Saudi Arabia)
- SCE Registered (ID #1096650)
- Valid Saudi Driving License
- Notice Period: 1 Month
