SUMMARY

Over 14 years of experience in managing high-risk lifting operations across major construction projects. Expert in planning, supervising, and executing heavy lifts using various crane types, with strict adherence to LEEA and international safety standards. Strong leadership in coordinating with safety and engineering teams, preparing detailed lift plans, and ensuring safe, efficient execution on site.

WORK EXPERIENCE

Lifting Operations Manager

2024 - Present -

El Seif Engineering & Contracting Co.-Project: Spine 183 Factory & Yard THE LINE, NEOM

📍 Neom

Lifting Plan Development

Prepare detailed lifting plans using AutoCAD based on site verifications.

Submit comprehensive lifting plan packages, including all required documentation, for client review and approval in accordance with company procedures.

Create customized lifting plans for each crane, considering excavation zones and site layout.

Operational Leadership

Act as the Line Manager responsible for the entire lifting team on-site.

Manage day-to-day lifting operations while ensuring adherence to safety protocols and approved plans.

Define clear scopes of work and delegate responsibilities based on qualifications and roles.

Equipment Compliance & Selection

Ensure all lifting appliances and equipment are third-party certified and color-coded per site requirements.

Select appropriate cranes and lifting tools suited for each task, ensuring correct capacity and configuration.

Verify lifting equipment specifications based on job scope for adequacy and compatibility.

Safety Management

Guarantee safe and competent execution of all lifting activities in line with LEEA and international safety standards.

Develop task-specific risk assessments to identify potential hazards and establish control measures.

Promote safe lifting practices aligned with company HSE policies.

Training & Team Development

Organize technical and safety training sessions for lifting team members and crane operators.

Provide coaching and mentoring to rigging supervisors, foremen, and riggers to enhance skills and performance.

Performance & Compliance Oversight

Implement structured procedures for safe lifting operations from planning through execution.

Lead internal lifting audits and participate in incident investigations and corrective action implementation.

Continuously assess and improve lifting strategies to meet company and client standards.

Lifting and Precast Manger

2018 - 2024

Al-Fouzan General Contracting

📍 Construction of Apartment Building Project Phase-2 (097-C74R). Royal Commission

Royal Commission Project - Jubail, KSA

Residential Buildings (12 Buildings - 6 Floors Each | G+5)

Role: Lifting & Rigging Supervisor / Appointed Person

Led and supervised all rigging and lifting operations for a large-scale precast residential project under the Royal Commission. Managed the erection and installation of 12 multi-storey buildings using heavy-duty cranes and advanced rigging techniques to ensure safe, accurate, and efficient component placement.

Key Responsibilities:

Fully managed lifting operations for all precast elements including walls, columns, beams, slabs, and staircases.

Coordinated and supervised tower cranes, mobile cranes, and rigging crews throughout all lifting activities.

Developed and executed Critical Lifting Plans (CLPs) for complex and high-risk lifts in compliance with LEEA and project-specific safety standards.

Conducted daily inspections, rigging equipment checks, and pre-task briefings with riggers and crane operators.

Supervised the installation sequencing of precast components ensuring proper alignment and structural safety.

Enforced strict HSE protocols, achieving zero incidents during all lifting operations.

Coordinated closely with structural engineers and site managers to align lifting schedules with construction progress.

Managed all documentation including risk assessments, Job Hazard Analyses (JHAs), work permits, and daily lifting reports.

Oversaw site execution of associated works such as insulation, concrete repair, epoxy applications, and finishing for precast elements.

Lifting Manger / Site Engineer

May 2015 - Apr 2018

Al-Fouzan General Contracting

Al-Madina Al-Munawwarah Project Dar Alhijrah

External and internal insulation works.

Precast concrete for bridge structures.

Finishing works and concrete treatment.

Structural repair and epoxy finishing in a 7 km tunnel and 8 high-rise towers.

Key Responsibilities:

Site Management:

Managed daily site operations, including supervision and monitoring of civil and structural works.

Ensured all work met project specifications, timelines, and budgetary constraints.

Lifting Operations:

Led and coordinated all lifting activities across a mega-scale project comprising high-rise towers, a pedestrian bridge, and extensive GRC architectural elements.

Managed tower cranes and mobile cranes, ensuring proper sequencing and coordination.

Planned and executed Critical Lifting Plans (CLPs) for high-risk operations including tandem lifts, confined-area lifts, and installation of large GRC panels.

Prepared detailed lift plans in full compliance with LEEA standards and project-specific safety requirements.

Conducted pre-lift briefings and maintained full documentation for all critical lifting activities.

Health & Safety:

Oversaw all site-related health and safety measures.

Ensured compliance with HSE protocols for personnel and equipment during all phases of work.

Reporting & Documentation:

Prepared Material Receiving Reports (MRRs) for all civil work-related deliveries.

Generated and submitted daily, weekly, and monthly progress reports.

Maintained detailed records to support project tracking and quality assurance.

Lifting Supervisor / Site Engineer

Mar 2011 - May 2015

Al-Fouzan General Contracting

King Faisal University in Al-Ahsa

Specific Duties and Responsibilities/Scope of Work:

installation of more 500 Villas(precast concrete)and 28 building

And 2 mosque and 2 Shopping center and following up the structural

installation work, casting grout Coordinated with site engineers and crane operators to ensure safe and efficient lifting sequences.

Prepared and reviewed daily lifting checklists and toolbox talks.

Ensured compliance with safety standards and site-specific lifting protocols.

Monitored lifting gear and rigging equipment for wear and damage.

Day-to-day management of the site, including supervising and monitoring the site work

Overseeing health and safety for all site people.

Prepare material receiving reports for civil works materials.

Preparing daily, weekly and monthly report.

Ensuring that the work meets the requirements of the project specification, budget & time scale.
