EXPERIENCE

Safety officer

Omran Contracting Company

2022 - 2024 Sudan

- Supervised safety compliance during construction projects in line with quality and project specifications.
- Developed and implemented HSQ programs aligned with international standards.
- Conducted risk assessments and ensured control measures were in place before work commencement.
- Monitored safety practices in excavation, scaffolding, work at heights, lifting operations, and confined spaces.
- Coordinated with engineers and workers to maintain safe conditions and reduce incidents.

SUMMARY

Mechatronics Engineer with a Bachelor's degree, NEBOSH certification, and OSHA Academy certification in Construction and Industrial Safety. Experienced in supervising and managing Health, Safety, and Quality (HSQ) in construction and solar energy projects. Proven expertise in developing and implementing HSQ programs aligned with international standards, conducting risk assessments, and enforcing control measures across excavation, scaffolding, work at heights, lifting operations, and confined spaces. Skilled in coordinating with engineering teams and workforce to maintain safe working conditions, promote a strong safety culture, and ensure compliance with occupational safety regulations.

EDUCATION

Bachelor's Degree in Mechatronics Engineering

Futuer university

2017 - 2022 Sudan

CERTIFICATES

NEBOSH International General Certificate (IGC)

OSHA Academy – Construction Safety and Health

OSHA Academy – General Industry Safety and Health

Job Hazard Analysis (JHA)

Emergency Action plan (EAP)

SKILLS

Risk Assessment & Analysis

Incident Investigation & Reporting

Safety Inspections & Site Monitoring

Supervising Lifting Operations

Report Writing & Documentation

Permit to work system (PTW)

Supervising Lifting Operations

Effective Communication

Safety Awareness Programs Development

First aid Microsoft Office

TRAINING / COURSES

Work at Heights & Confined Spaces Safety

Cranes & Lifting operation safety

Scaffolding & Ladder Safety

Excavation & Backfilling Safety
