Achievement & Abilities

- A team player, able to motivate
- Organise and pay attention to detail
- Take pride in work and always achieve tasks to high quality
- Manpower handling
- Sound Knowledge in Office related work.

Languages

- English
- Hindi
- Malayalam
- Kannada

Education

Diploma in Civil Engineering (ITI) from BDPs, Mangalore

Auto CADD, 3Dmax & Revit Architecture

Training : Construction Trade skills training in Formwork by L&T Bengaluru (3 months).

Efficient with Microsoft–Office (MS Word, MS Excel, and MS PowerPoint) Internet and Web Browsing. Familiar with Windows 98, 2000, XP, Vista, and Window7, Working in Outlook.

Duties & Responsibilities

- Inspection of all types of civil activities at the site from foundation to finishing works including (excavation work, backfilling work, waterproofing work, structural work, pre-pouring work, concrete work, CMU Blockworks, plastering, finishing works, painting work, tiles flooring works, etc.) with applicable standards.
- Responsible review of QA/QC documents like ITP, QCP, Method Statement, and Specification.
- Attend all necessary inspections as identified in the approved Inspection and Test plan (ITP)
- Follow up on project specifications provided by clients; arrange meetings with sub-contractor for any clarification and correspondence.
- Responsible for ensuring by inspection and verification that Civil & Structural works are performed in accordance with the Project requirements.
- Inspection of excavation, compaction, and Field Density test (FDT) prior to lean concrete work.
- Making Quality Verification Document and checking that on-site as QA/QC Inspector with the consultant.
- Performed as a Quality control inspector for the supervision of Reinforcement and monitoring of concrete pouring.
- Confirming the received material specification with the actual project.
- Implements actions and requirements as detailed in the project's Inspection and Test plan.
- Witnessed Field density Works (FDT) for finding compaction test.
- Witness FBE Coated rebar inspection and Formwork inspection.
- Monitoring the concrete pouring work including air content test, slump test, and temperature of concrete and ensuring that enough vibrator are used for concrete work.
- Inspection of Form and Reinforcement work for footings and foundation prior to concrete and giving clearance for concrete work.
- Monitoring and inspection of honeycomb rectification on the concrete area prior to surface preparation.
- Inspection of surface preparation for the footings, pedestals, foundation, and retaining wall prior to the application of a waterproof bituminous coat.
- Inspection of waterproof Bituminous coats (DFT Test) application on foundation and giving clearance for backfilling. Ensure that project construction activities are conducted in accordance with the quality system.
- Receiving RFI for inspected items and conducting inspection as per ITP.
- Perform Inspection/Testing and records of inspection. Coordinate with the independent
- Testing laboratory in performing necessary tests and reviewing all the tests results.
- Material & Material Certificates Inspected as per specification and standards.
- Making daily inspection reports.
- Preparing weekly reports of inspection activities.
- Supervise and witness inspection, check reports, documentation and maintain the Quality records in the file.
- Quality control and inspection of all site works, taking samples of Materials Quality control of materials.
- Inspection of Steel erection before pouring concrete for R.C.C retaining wall, Quality control of ready-mix concrete.
- Check Re-bar size, number of re-bars used for the structure, overlap, development length, etc.
- Checking bolt location, size of bolt, Top of bolt elevation, and embedded parts.
- Q.C work inspection of material at the site, verification of work before starts and during work.
- Checking of bar bending after fixing and cutting, shuttering fixing axis and center line.
- Verify all samples, certificates of Laborites, and field tests and maintain all filling systems for all quality control procedures, records, reports, etc.
- Supervision of field activities such as excavation, the foundation works, steel works, concrete pouring, masonry, and finishing work.
- - Perform *visual and dimensional inspections* of precast concrete elements (e.g., beams, columns, panels, slabs, pipes) at various production stages.
- Conduct *material inspections* (aggregates, cement, reinforcement, admixtures) to ensure compliance with specifications.
- Monitor *concrete mix design*, slump tests, air content, and temperature checks.

- Perform *compressive strength tests* (cylinder breaks) and other lab tests as required.
- Verify *reinforcement placement* (rebar, prestressing strands, welded wire mesh) before casting.
- Maintain detailed *inspection records*, test reports, and non-conformance logs.
- Prepare *daily QC reports* and submit them to the QA/QC Manager.
- Ensure all documentation complies with *ASTM, ACI, or project-specific standards*.
- Track and report *defects* (cracks, honeycombing, surface blemishes) and recommend corrective actions.
- Monitor *production processes* (batching, casting, curing, demolding) to ensure adherence to QC plans.
- Verify that *formwork, molds, and finishing* meet design tolerances.
- Ensure proper *curing methods* (steam, water, membrane) are followed.
- Check for *handling, storage, and transportation* practices to prevent damage.
- Liaise with *production supervisors, engineers, and project managers* to resolve quality issues.
- Participate in *quality meetings*.
- Communicate with *third-party inspectors* or client representatives as needed.
- Conduct *final inspections* before shipment to the construction site.
- Verify *marking/labeling* (batch numbers, casting dates, part numbers).
- Approve products for delivery only if they meet all quality criteria.
- Knowledge of *precast concrete manufacturing processes*.
- Familiarity with *ASTM, ACI, PCI, ISO, and other relevant standards*.
- Experience with *QC testing equipment* (compression machines, slump cones, calipers).
- Strong attention to detail and problem-solving skills.

Declaration

I hereby certify that the above statements are true and correct to the best of my knowledge.
