PROFILE

Dedicated and certified HSE professional with 4 years of hands-on experience in the construction industry, ensuring compliance with Saudi Arabian safety regulations and international standards such. Proven track record in risk assessment, safety audits, incident investigation, and workforce training. Skilled in implementing proactive safety measures and cultivating a zero-incident culture on site. Eager to contribute as an HSE Inspector to uphold and elevate safety performance.

PROFESSIONAL EXPERIENCE

Safety Inspector, Al-Yamama Company

Neom, Tabuk, KSA

June 2024 – July 2025

- Conducted daily site inspections to ensure compliance with KSA, NEOM safety standards, and company HSE policies.
 - Monitored high-risk activities including excavation, electrical work, and heavy machinery operations, enforcing permit-to-work systems.
 - Identified hazards related to plantation, road construction, lighting, and irrigation, implementing corrective measures.
 - Organized and delivered safety toolbox talks for workers, covering PPE, emergency response, and equipment handling.
 - Carried out risk assessments (JSA) for asphalt laying, and electrical installations.
 - Ensured fire safety compliance in rest areas and storage zones, checking extinguishers and emergency exits.
 - Investigated workplace incidents and near-misses, documenting findings and recommending preventive actions.
 - Supervised subcontractors to ensure adherence to NEOM and Al-Yamama safety regulations.
 - Verified safe installation of irrigation systems, minimizing chemical and electrical hazards.
 - Maintained accurate safety records, including inspection reports, permits, and training logs.
-

SKILLS

- Hazard Identification & Risk Assessment
- Safety Regulations & Compliance
- Incident Investigation & Emergency Response
- Fire Prevention & PPE Enforcement
- Communication & Team Collaboration
- Problem-Solving

LANGUAGES

- Urdu & Hindi
- English
- Arabic (Beginner)

Safety Inspector, SAJCO

Neom, Tabuk, KSA

August 2023 – June 2024

- Conducted daily safety inspections of excavation sites, temporary roads, and earthwork operations to ensure compliance with KSA and company HSE standards
 - Monitored trenching and excavation activities, enforcing slope stability measures and protective systems like shoring and benching to prevent collapses
 - Implemented traffic management plans for temporary roads to ensure safe vehicle movement and pedestrian segregation
 - Enforced Permit-to-Work (PTW) systems for high-risk tasks involving heavy machinery operation (excavators, bulldozers)
 - Performed Hazard Identification and Risk Assessments for soil removal, backfilling, and embankment construction
 - Conducted safety training for workers on excavation protocols, underground utility avoidance, and emergency procedures
 - Inspected earthmoving equipment (dump trucks, compactors) for mechanical integrity and safe operation, reporting defects immediately
 - Installed proper barricading and warning signage around excavation zones to prevent unauthorized access and falls
 - Investigated and reported all near-misses and incidents, identifying root causes and implementing corrective actions
 - Coordinated with site engineers and contractors to ensure earthwork activities followed approved safety plans
-

Safety Inspector, HNL

Lahore, Pakistan

September 2022 – August 2023

- Conducted safety inspections of telecommunication towers and office facilities to ensure compliance with industry standards and company HSE policies
- Monitored working-at-height activities, enforcing fall protection systems and safety harness protocols for tower maintenance
- Implemented electrical safety measures for power installations and equipment handling at telecom sites
- Enforced lockout-tagout (LOTO) procedures during maintenance of high-voltage equipment and generators
- Conducted RF radiation safety assessments and ensured proper signage in restricted exposure zones
- Supervised confined space entry procedures for equipment shelters and underground cable vaults

- Organized emergency response drills specific to telecom sites, including tower rescue scenarios
 - Verified proper grounding and lightning protection systems for telecommunication infrastructure
 - Investigated incidents related to equipment malfunctions or safety violations at tower sites
 - Maintained documentation of safety certifications for all climbing and rigging equipment
 - Coordinated with telecom technicians to ensure safe work practices during antenna installations and upgrades
 - Conducted regular inspections of personal protective equipment (PPE) for tower climbing crews
 - Implemented heat stress prevention measures for outdoor work in extreme temperatures
-

Safety Inspector, Techno Time Company

D G Khan, Pakistan

May 2021 – August 2022

- Conducted safety inspections of bridge reconstruction sites to identify flood-related hazards and structural risks
- Monitored pile driving and foundation work, ensuring proper shoring and stabilization methods in flood-affected areas
- Implemented water safety protocols for workers near riverbanks, including life jacket enforcement and rescue equipment availability
- Enforced strict sediment and erosion control measures to prevent environmental contamination during reconstruction
- Supervised temporary bridge installations, ensuring load capacity compliance and safe access for construction vehicles
- Conducted daily assessments of weather conditions and water levels to adjust work schedules for flood risks
- Organized emergency evacuation drills specific to flash flood scenarios at the construction site
- Verified structural integrity of construction materials exposed to floodwaters before installation
- Monitored heavy equipment operations on unstable terrain near riverbanks, implementing ground stability measures
- Investigated near-misses related to fast-moving water hazards or unstable working surfaces
- Coordinated with local authorities on flood warning systems and emergency response plans for the site
- Implemented mosquito-borne disease prevention measures in stagnant water areas near worksites

- Conducted safety briefings for workers on waterborne hazards and swiftwater rescue procedures
- Maintained inspection records for all temporary structures and flood protection barriers
