Objective

Experienced Scaffolding Specialist Seeking a Senior Supervisory Role to Apply My Proven Track Record of Managing Scaffolding Works On Major Projects, while advancing My skills in Safety Management and Project Coordination.

Roles & Responsibilities

- **Scaffolding Supervisor is responsible for overseeing and managing scaffolding activities at construction sites to ensure safe, efficient, and compliant scaffold erection, modification, and dismantling operations.**

- **Supervision & Leadership:**

Lead and supervise scaffolding teams (erectors, inspectors, helpers).
Allocate daily work and ensure tasks are completed safely and on schedule.
Monitor workforce productivity and provide technical guidance as needed.

- **Planning and Coordination:**

Coordinate with site engineers, safety officers, and other departments for scaffold requirements.
Prepare scaffolding work schedules and material forecasts.
Organize manpower and resources efficiently to avoid delays.

- **Safety Compliance:**

Ensure all scaffolding works comply with local regulations, project specifications, and safety standards (e.g., OSHA, BS EN 12811, or local authority codes)
Conduct toolbox talks, risk assessments, and ensure proper use of PPE.
Ensure scaffolds are inspected and tagged (green/yellow/red) correctly

- **Training & Development:**

Train team members in safe scaffold practices
Promote a strong safety culture within the scaffolding team.

Scaffold Erection, Modification & Dismantling:

Oversee the proper erection, alteration, and dismantling of all scaffold types (cuplock, tube & fitting, mobile towers, suspended scaffolds, etc).
Check load capacities, anchorage, platform width, guardrails, toe boards, and access ladders.

- **Inspection & Quality control:**

Inspect scaffolding materials for defects or damage before use
Ensure regular inspection and maintenance of scaffolds.
Identify and rectify unsafe or non-compliant scaffold structures immediately.
Maintain daily and weekly scaffold checklists and documentation

- **Documentation and Reporting**

Maintain scaffolding logs, inspection reports, and work permits
Provide daily progress reports and updates to site management.

Skills

- Leadership And Team Management
- Planning And Scheduling
- Strong Knowledge of Scaffolding Systems and Techniques:
- Familiarity with Safety Standards and Regulations
- Material Management
- Problem Solving And Decision-making Ability's
- Effective Communication and Organization skills
- Documentation and Reporting
- Reading Drawings – Ability to read and interpret scaffolding drawings, layouts, and load requirements.
- Inspection & Tagging – Proficient in scaffold inspection, tagging system (Green, Yellow, Red), and handover documentation.
- Load Calculation – Understanding of scaffold load capacity, bracing, base plate, and anchoring.
- Work Planning – Ability to plan work sequences, allocate manpower, and ensure timely completion.
- Reporting – Daily progress reports, scaffold request & inspection reports.
- Discipline & Time Management – Keeping work on track and within deadlines.

Achievements & Awards

- Certificate of achievement: 1 Million Safe Man-Hours
- Certificate of achievement: 2 Million Safe Man-Hours
- Certificate of achievement: 4 Million Safe Man-Hours
- Certificate of achievement: 8 Million Safe Man-Hours

Certification

- Educational certificate:
- Experience certificate:
- Training certificate:
- TUV certified:
- First Aid certified:
- Appreciation certificate:

Activities

- Reading Historical Books
- Learning More Skills
