- Facilitating communication among stakeholders to align project goals with client expectations and organizational objectives.
- Conducting risk assessments and developing mitigation strategies to address potential project challenges.
- Preparing detailed project reports, including milestones, budget forecasts, and resource allocation.
- Leading project kickoff meetings and regular status updates to keep teams informed and engaged.
- Ensuring adherence to quality standards and compliance with industry regulations throughout the project lifecycle.
- Managing vendor relationships and procurement processes to ensure a timely supply of materials and services.
- Providing training and support to team members on best practices in project management and use of collaboration tools.
- Identifying opportunities for process improvement and implementing solutions to enhance project efficiency.

Green Building Co. | Contractor & Construction for Villas, Amman, Jordan

Position: Civil Site Engineer

June 2020 – February 2023

Amman, Jordan

1. Supervised and coordinated on-site construction activities for villa projects, ensuring adherence to design specifications and quality standards.
2. Managed project timelines and budgets, successfully achieving key milestones and overall project goals.
3. Liaised effectively with architects, contractors, and clients to resolve issues, enhance project outcomes, and maintain alignment with project objectives.
4. Conducted site inspections and quality control assessments to ensure compliance with safety regulations and building codes.
5. Prepared and reviewed detailed project documentation, including progress reports, work schedules, and cost estimates.
6. Assisted in the procurement process by evaluating and selecting materials and subcontractors to meet project requirements.
7. Implemented safety protocols and procedures to ensure a secure working environment for all site personnel.
8. Monitored and reported on-site activities to senior management, providing insights into project status and potential areas of concern.
9. Coordinated with local authorities and regulatory bodies to obtain necessary permits and approvals for construction activities.
10. Managed the resolution of technical issues and construction challenges, employing problem-solving skills to maintain project momentum.
11. Led training sessions for junior engineers and site staff on construction best practices and safety measures.
