

Bader Zayed Al Thagafi

Geophysics Graduate | Mud Logger | GIS & Subsurface Analyst

Riyadh | bader20@outlook.com | +966532933857

Objective

Geophysics graduate with hands-on training in GIS (ArcGIS Pro, QGIS). I can create maps, add points, lines, and polygons, and work with spatial data. Looking for a Junior GIS Analyst position to apply my mapping and data skills.

Education and work experiences

- **Bachelor's Degree in Geophysics**
King Saud University Graduation year: 2024
- **Senior Quality Control (QC) Processor at BGP** (September 2024 – November 2024)
 - Conducted seismic data quality control and verification.
 - Worked with acquisition teams to resolve data issues.
 - Ensured accurate and complete field data for geophysical processing,
- **Mud Logger at Excellence Logging (Exlog)** (April 2025 – Present)
 - Monitor real-time drilling parameters. - Describe lithology samples.
 - And prepare daily geological reports.

Skills

- I can make different types of maps using ArcGIS and QGIS.
- I add points, lines, and polygons to show locations and areas.
- I edit layers, fix wrong coordinates, and organize map data.
- I measure distance, area, and make buffer zones when needed.
- I design map layouts with titles, labels, and scale bars.
- I use Excel and Google Earth to manage and display location data.
- I can work with raster and vector files and combine them in maps.
- I understand how to collect, clean, and display spatial data clear

Courses & Training

- **GIS & Mapping**
Completed a training course in ArcGIS Pro (Theoretical & Practical) by Tamkeen Alahfad for Training and Professional Development – Dubai Knowledge. Skilled in map creation, spatial analysis, and geospatial data visualization.
- **Remote Sensing & Image Analysis**
Processing, Classification, and Analysis of Remote Sensing Imagery using ArcGIS Pro
Tamkeen Alahfad for Training & Professional Development – Dubai Knowledge (2025)
