Current Location: Dubai, UAE, Notice period: 07 days  
Nationality: Indian | Driving Licenses: KSA & UAE

### PROFESSIONAL SUMMARY

---

Results-driven professional with a proven track record of successfully leading projects in the construction sector. Skilled in managing complex mid and large-scale projects from inception to completion, ensuring timely delivery, adherence to budget, and full compliance with safety, quality, and efficiency standards.

Consistently exceeds client expectations and achieves measurable performance outcomes. Delivered major projects for top-tier clients, including Saudi Aramco, ADNOC, PDO, ORPIC, and Dussur-SeAH. Achieved significant cost savings and operational efficiencies on key projects such as the SGSSP Jizan, Petro Rabigh Phase III Expansion, and the Shedgum STG Project.

A strong leader with a history of managing multidisciplinary teams of over 1,800 personnel, maintaining exceptional safety performance, quality excellence, and stakeholder satisfaction throughout all phases of project execution.

### EXPERIENCE DETAILS

---

#### SITE MANAGER

**Sarsan Contracting | Dubai, UAE | Since July 2025**

**Project:** 180 MIGD Hassyan Seawater Reverse Osmosis Project (SWRO) – Main Contractor: SEPCO | Client: ACWA Power

**Scope:** Construction of the Main Office Building including foundation, tie beams, and hollow core slabs. (At present, our scope is nearing completion)

#### Roles & Responsibilities:

- Lead and manage overall project execution for civil and structural works, ensuring compliance with project specifications, IFC drawings, and quality standards.
- Coordinate with SEPCO (main contractor) and ACWA Power (client) for approvals, inspections, and progress updates.
- Develop and monitor project schedules, identify risks, and implement corrective actions to mitigate delays.
- Supervise the site teams, ensuring adherence to HSE requirements and productivity targets.
- Oversee material procurement, delivery schedules, and resource allocation to maintain cost efficiency.
- Conduct progress meetings with stakeholders, prepare status reports, and ensure timely communication of issues and resolutions.

#### PROJECT MANAGER

**Sendan International Company | Jubail, Saudi Arabia | Nov 2022 – May 2025**

**Project:** SeAH Gulf Special Steel Industries Project (SGSSP), SPARK – Dammam

Contract Value: SAR 267M | Client: SeAH-Dussur

Led the construction of the first seamless stainless-steel pipe manufacturing facility in the MENA region, including:

- Erection of 5,400 MT Pre-Engineered Building (PEB) steel structure and 42,000 m<sup>3</sup> of concrete works.
- Construction of a complex press machine foundation at -13 m elevation, supported by 230 piles, plus test analyses, pickling, boring, coning units, and both administrative and transformer buildings.
- Optimized project schedules, Controlled budgets, tracked expenditures, and implemented cost-saving measures to prevent overruns.
- Maintained close communication with the client to provide updates, resolve issues, and ensure satisfaction.
- Managed resource allocation (manpower, equipment, and materials) for maximum efficiency.
- Enforced strict HSE standards and quality assurance protocols.

## **PROJECT MANAGER**

**Manarah Al Jubail Cont. Co Ltd (MCCL) | Jubail, Saudi Arabia | Jan 2016 – Jun 2022 (6½ Years)**

**Directed multiple large-scale infrastructure projects for SAUDI ARAMCO**, delivering high-quality results within scope, budget, and schedule.

Key Projects & Achievements:

1. **Installation of Steam Turbine Generator – Shedgum Gas Plant** | SAR 38M | Contractor: ENPPI | Client: Saudi Aramco
  - Led the construction of turbine foundations, pipe racks, and associated facilities, ensuring operational readiness.
2. **Marjan Development Program – Package 20** | SAR 220M | Contractor: Al Kifah MCCL | Client: Saudi Aramco
  - Managed LSPB contract covering construction of buildings, temporary offices, training centers, camp facilities, new asphalt road for 22 kms, fire and portable water networks, sewer systems, lift stations, and 27 km fiber optic cable from Marjan to Tanajib plant.
3. **Jazan New Refinery (JIGCC) – Utilities & Common Area (Package 05)** | SAR 180M | Contractor: TR | Client: Saudi Aramco
  - Oversaw utilities and common area works, leading a workforce of 1,800+ personnel while maintaining high safety and quality standards.
4. **Petro Rabigh Refinery Phase III Expansion – North Tank Farm Package** | SAR 42M | Contractor: Petrofac | Client: Petro Rabigh/Saudi Aramco
  - Delivered tank farm construction within budget and schedule, ensuring strict compliance with scope and specifications.

Key Responsibilities:

- Monitored progress to ensure adherence to schedules and milestone achievements.
- Managed logistics and delegated tasks to improve efficiency across multi-disciplinary teams.
- Conducted regular client meetings to align objectives and resolve issues promptly.
- Implemented stringent cost control measures to prevent budget overruns.
- Enforced quality and safety standards through continuous inspections and material evaluations.

## **CONSTRUCTION MANAGER**

**Al Hassan Engineering SAOG | Muscat, Oman | Oct 2014 – Nov 2015**

**Project: Sohar Refinery Phase III Expansion** | Value: USD 72M

Contractor: Daelim Petrofac JV | Client: ORPIC

Directed civil construction activities for major refinery expansion works, ensuring seamless coordination across disciplines and strict compliance with project requirements.

Key Achievements:

- Delivered 37 tank pad foundations, main and sub-pipe racks, and critical facility packages including wastewater treatment, utility areas, LPG, OCB, flare, product, crude, and interim areas.
- Ensured all construction packages met schedule, budget, and quality targets.
- Key Responsibilities:
  - Led multidisciplinary construction teams, promoting collaboration and productivity.
  - Oversaw daily construction operations to align with specifications and client expectations.
  - Monitored quality control procedures, ensuring high standards across all works.
  - Enforced HSE compliance through regular inspections, audits, and safety briefings.

## **DEPUTY MANAGER – CIVIL**

**Punj Lloyd Limited | Abu Dhabi, UAE | Nov 2011 – Aug 2014**

**Project: Spiking Gas Compressor with Facilities – Shah 01 Field (EPC Project)** | Value: USD 83M | Client: ADCO

Managed civil construction works for a major EPC gas compression project, ensuring quality, schedule adherence, and compliance with client specifications.

#### Key Achievements & Responsibilities:

- Directed large-scale site development, including earthworks, cutting, and backfilling.
- Executed construction of two gas compressor foundations, main and sub-pipe racks, and mechanical packages including coolers, vessels, metering units, gas dehydration units (GDU), tri-ethylene glycol (TEG) systems, and flare systems.
- Developed project schedules, deliverables, and cost estimates to optimize execution.
- Ensured compliance with building codes, safety regulations, and client requirements.
- Managed construction teams and subcontractors to achieve seamless project delivery.

#### **CIVIL ENGINEER**

##### **Worley Parsons Arabian Industries (JV), WPAI (EPC) | Muscat, Oman | Apr 2007–Oct 2011**

Client: PDO – South Oman

Delivered multiple EPC pipeline and facility projects for Petroleum Development Oman, ensuring compliance with technical specifications, safety regulations, and schedule commitments.

#### Key Projects & Achievements:

- Hasirah-Zauliyah: 8" Underground GRE Pipeline (36 km) – USD 17 million
- Suwaihat: Relocation of Fluid Facilities Project – USD 32 million
- Zauliyah: Water Injection (WI) Pumps Project – USD 18 million
- Nimr-A: 18" UG Pipeline (4.5 km) and Amin-B: 12" Pipeline for (4.71 km)

#### **CIVIL ENGINEER**

##### **Al Madar Holdings | Doha, Qatar | May 2002 – Dec 2006**

Executed high-value building projects, ensuring quality construction, timely delivery, and adherence to client specifications.

#### Key Projects & Achievements:

- Al Noor Office Tower: Constructed a high-rise building (2B+G+F+S+22 floors),
- Al Waab Residential Development: Delivered 210 villas (G+1) and a clubhouse, coordinating multiple trades and maintaining quality standards.
- Police Headquarters – Saliah Prison: Constructed the Police Head Office (Search & Follow-Up Unit) with full compliance to safety and client requirements.

#### **EDUCATION QUALIFICATIONS**

---

Diploma in Civil Engineering | Kamaraj Polytechnic, Nagercoil, Tamil Nadu, India

Bachelor of Technology (B. Tech) – Civil Engineering | Janardan Rai Nagar Vidyapeeth University, Udaipur, India

#### **CORE COMPETENCIES**

---

- |   |  |
|---|--|
| ○ Leading cross-functional teams and optimizing workforce deployment for efficiency | ○ Identifying potential issues early and implementing preventive solutions.    |
| ○ Developing detailed project schedules, ensuring timely delivery within scope      | ○ Driving safety-first culture while meeting international quality standards.  |
| ○ Managing project budgets with a focus on cost optimization.                       | ○ Providing strategic solutions to complex issues and construction challenges. |
| ○ Building strong relationships, ensuring transparency and client satisfaction.     |  |
