## Professional Experience

### Civil Quality Inspector & Project Executive

#### Lane-X Road Marking Pvt Ltd (Road and Bridge Work)

May 2022 – Aug 2024

- Inspected road marking projects to confirm compliance with industry standards and project specifications.
- Applied construction quality principles to evaluate structural elements, including foundations and concrete works for ancillary site buildings.
- Verified material quality and application methods, minimizing errors and improving overall project efficiency.
- Maintained detailed inspection records and reported non-compliance issues to drive corrective actions and quality improvements.
- Monitored adherence to safety regulations, identifying deviations to safeguard project durability and integrity.
- Performed quality audits on material storage and handling practices to ensure proper preservation and regulatory compliance.

### Civil Quality Inspector & Project Executive

#### Kansai Paint (Road and Bridge Work)

Oct 2018 – Apr 2022

- Conducted inspections to ensure road marking projects adhered to industry standards and safety regulations.
- Leveraged building construction expertise to oversee the quality of temporary site facilities and permanent structural finishes.
- Oversaw project scheduling, resource allocation, and task execution to optimize timelines.
- Ensured seamless project flow from initial planning phase through to final completion.
- Maintained detailed project documentation and provided regular progress updates to stakeholders.
- Addressed non-compliance issues promptly to support informed decision-making and enhance client satisfaction.

### Supervisor

#### UNI MAX SMC-Ltd (Road and Bridge Work)

Jul 2016 – Jun 2018

- Mentored and trained team members to foster collaboration and improve service delivery.
- Analyzed customer feedback and performance metrics to implement efficiency optimization strategies.
- Enhanced customer experiences through strategic oversight and targeted process improvements.
- Implemented strategies that increased client retention through improved service quality.

### Supervisor

#### NLC (Road and Bridge Work)

Apr 2014 – Jun 2016

- Led cross-functional teams overseeing road and bridge projects, ensuring timely and budget-conscious delivery.
- Achieved significant productivity gains through the implementation of streamlined processes.
- Coordinated all project activities and resources to foster collaboration and meet project milestones.
- Implemented quality control measures and safety protocols to ensure compliance with industry standards.
- Maintained a safe work environment by enforcing strict adherence to established safety protocols.
