

Profile Summary

Student at the Faculty of Artificial Intelligence. I have a great interest in machine learning and data science, and I am trying to find a suitable opportunity to demonstrate my abilities and skills. I am delighted to be part of this exciting field and contribute to its growth and development.

Professional Skill

- Python
- Problem Solving
- OOP
- c++
- SQL
- Excel
- Data structure & Algorithms
- Machine & Deep Learning
- postgres
- HTML
- CSS
- JavaScript

Soft Skills

- Hard Worker
- Team Player
- Excellent in English
- Fast Learner
- High communication skills

Education

Bachelor's in Artificial Intelligence

Faculty of Artificial Intelligence , Kafr El Sheikh University

2021-present

Work Experience

Orange Digital Center

- Software Engineering Intern

2022-2022

Instructor

- introduce Python , C++ , Computer Fundamentals , Robotics

2023-present

Huawei Certified ICT Associate

- Artificial Intelligence Diploma

2021-2021

Google Developer Student Club

- Data Structure & Algorithms member

2022-2022

Institute Of Electric And Electronics Engineers

- Python Developer Member

2022-2022

AWS AI & ML Scholarship Program

Backend Django ITI Summer Training

2024-2024

Projects

- Ensemble machine learning model for breast cancer prediction
- Cashier Library System
- Deep Learning model for skin cancer detection
- Principal Component Analysis from scratch
- Turbines-damage-predction
- climated-Change-Analysis
- Eye Cataract Detection & Classification
- Deep Learning Model for Schizophrenia Detection (CNN - ResNet - DenseNet)
