

Fahim Ullah

QUALITY CONTROL ENGINEER

With a total 11+ years' experience

RIYADH, K.S.A

Mob No. **00966559747801**

u.fahim@alayuni.com
enr.fahimksa92@gmail.com

**B.S. in GEOLOGICAL
ENGINEERING**
BUIITEMS UNIVERSITY
2013

Date of Birth: 10/01/1992
Nationality: PAKISTANI

Field of Experience:

- Building Construction
- Infrastructure work
- Tunnels
- Diversion works
- Concrete tanks
- Micro tunneling

Professional Memberships:

- Membership of Pakistan Engineering Council (PEC) Membership Geology/00124.
- Membership of Saudi Council of Engineering (SCE) No.1003986

Certifications:

- QMS LEAD AUDITOR
ISO 9001:2015
- Construction supervisor role in OHS implementation.
DIRIYAH COMPANY-Training and research department in OHS division Al-Riyadh KSA
Cert Code: 100IN725G302

CAREER HIGHLIGHTS

- I am a Certified Geological Engineer with Bachelor's **Degree in Geological Engineering**, along with **11+** Years of relevant construction work experience with reputed Consultants and Contractor companies in Construction Industry, including execution, supervision, planning- monitoring, and handing over phases of complex construction projects mainly related to Roads & Infrastructure likes Earthwork, Roads and Highway, Sewerage Collection System (Including Micro Tunneling), Drainage & Utilities such as Sewerage network, Storm water network, TSE Irrigation network, and all Dry Utilities networks

PERSONAL SKILLS

- Team leader in several projects.
- Highly organized and can manage under stress.
- Problem solving oriented & trying to be a proactive person in most of the situations.
- Adapted and flexible.
- Interacted and dealt with people from various countries and backgrounds.
- Hard worker, active and self-motivated. Communication & leadership Skills
- Very good listener. That gives me the ability to understand and to be understood.

5 MATERIAL ENGINEER

Employer: SPECTRA ENGINEERING SOLUTIONS PVT. LTD. (CONSULTANT)

Jan 1st, 2016, to 30th March 2018

Projects: Package-I Construction of By-pass Road, service roads and Bridges From Rashakai Interchange to western By-Pass.

Package-II construction of Road from Western By-pass to Shahnoor Pul 8-KMs and Flyover

Client: PKHA

6 MATERIAL ENGINEER

Employer: M/S KHATTAK ALLIED CONSTRUCTION COMPANY (PVT) Ltd

May 1st, 2014 to Dec 31, 2015

Project: CONSTRUCTION OF JALOZAI HOUSING SCHEME ADP No. 844/1208/8 for launching of housing scheme package-III Sector C & E for Govt servants and General Public

Client: PHA

7. Asst. Material Engineer

Employer: M/S MUHAMMAD IBRAHIM ASSOCIATES

Oct 1st, 2013 to April 26, 2014

Project: Construction Of Flyover at Saryab Phattak Quetta

Roles and Responsibilities:

- To review the relevant documents prior to the start of construction e.g. IFC Drawings, method statements, Project Specifications.
- Reviewing design plans and specifications for compliance with building codes, regulations and project requirements.
- Initiate the WIR's for Client's witness of inspection points as per ITPs.
- Executing specific inspections on materials, equipment and construction/installation activities at site.
- Ensuring the correct implementation of the approved inspection and test plan (ITP) according to client's requirements.
- I am proactive in the construction crew for advising to correct the activities which could lead to non-conformance.
- Responsible of all QA / QC related activities, check and review the plans & specifications for the proper construction & quality implementation at job site.
- Conduct a final inspection with owner's representative prior to proceeding concrete pouring and other succeeding work activities that requires step by step inspection as per inspection and testing procedures (I.T.P.), render monitoring and surveillance on site to control the quality of work being implemented by the construction group.
- To coordinate with surveyor to finalize the benchmark survey setting out prior to start of construction.
- Making inspection of all types of materials received like Precast Concrete Panels, Fresh concrete, Beams, steel, Asphalt, Subbase, Aggregate Base, etc. to ensure the material is as per project specifications and drawings. Earth work (excavation, filling, Grading & Compaction Formation, Fixing of kerb stone, foot path work, road signage work, Under Ground utilities work,
- prime coat work, Asphalt Base Course works, Tack coat Works, Asphalt Wearing Course.
- Ensuring proper storage of all types of materials received at site.
- Coordination with construction crew for on-going civil/structural activities,

including but not limited to Precast Concrete Panels and Beams installation, excavation, backfilling, and compaction, rebar inspection, formwork inspection, Field Density Test, concrete pouring, asphalt, etc.

- Review and check submittals, shop drawings, equipment data, material samples and/or manufacturers for compliance with contract drawings and specifications and project's quality system.
- Issuing site observation and when necessary, write and send non-conformance reports to the quality supervisor.
- Preparation of corrective and preventive action plans in coordination with construction crew and quality supervisor.
- Regular site surveillance for foreseeing the potential deficiencies based on site and to share with construction crew.
- Coordination with Civil testing agencies / batching plants for in time delivery of concrete and subsequent inspection & testing requirements.
- Maintaining internal Logbook Entries/NCR's to construction crew for effective implementation of project quality plan, ITP's, written procedures, project specifications, IFC drawings etc.
- Coordination with Clients inspectors for getting feedback for open logbook entries and preparations of corrective actions to close those violations.
- Coordinate with the consultant's representative and Site in-charge for inspection and meeting about quality issues including closure of Non-Compliance Report.
- Attend a weekly QC meeting with Management & Client to ensure that all NCRs, Logbook Entries and deficiencies are rectifying and closing on agreed target dates.
- Carry out Internal Audit at site as scheduled in the Project Quality Plan, PQP.
- I have direct experience in inspection of asphalt/concrete mix ingredients in accordance with the applicable Saudi Aramco, ASTM, AASHTO or ACI procedures and guidelines.
- Maintaining laboratory records.
- Coordinate with the design team to resolve all construction issues, and site related quality conflicts.
- Implement the QA procedures, coordinate architectural QC work with other technical disciplines to ensure safe and seamless management with all trades and activities.
- Coordinate testing and inspection of off-site materials provide necessary procedures for materials storage and testing.
- Responsible in the quality and workmanship of every activity, thorough knowledge of all phases of engineering construction relating to Geological, Civil, and Structural discipline interfacing multidisciplinary operations.
- Ensure all work is correctly prepared prior to any inspection being undertaken.
- Assist the site QC supervisor in the organization, maintenance, and control of the quality system.
- Responsible for implementing project quality plan based on client specification and international standard code referring to the design and quality manual.
- Delivering Quality Toolbox Meetings to minimize the non-conformity for upcoming activities.
