---

Geologist – Supervision | Drilling | Quarry Management

## Contact Information

**Address:** Ashir Street, Riyadh, Kingdom of Saudi Arabia

**Phone:** 0562877049

**Email:** elboshy60@gmail.com

**Iqama status:** Valid and transferable

## Professional Summary

Experienced and highly motivated geologist with over 10 years of diverse experience in laboratory testing, geophysical surveys, groundwater well drilling, and quarry supervision. Skilled in field operations, regulatory compliance, and reporting. Known for precision, accountability, and delivering results under pressure. Believes in learning deeply in any role and contributing to a disciplined, professional work environment.

## Professional Experience

### Supervising Geologist | Egyptian Company for Mining, Quarry Management and Exploitation (Armed Forces)

Oct 2020 – Jul 2025

- Supervised quarry operations to ensure efficiency and safety.
- Monitored quarry licenses and recorded any violations.
- Participated in quarry opening and closing committees.
- Evaluated the continuity of quarry materials through sampling and visual identification.
- Sent collected samples to laboratories for detailed analysis.

### Well Site Geologist | Arabian Contracting Drilling Company

Dec 2018 – Oct 2020

- Supervised drilling operations, collected samples for testing, and recorded drilling data such as depth, soil type, and production rate, while monitoring drilling fluid.
- Worked across sites including Sinai, El Dakhla, El Kharga , and Farafra in Egypt.

### Groundwater Well Geologist | NSPO – Armed Forces

Sep 2017 – Sep 2018

- Supervised groundwater well implementation by contracted companies, ensuring compliance with specifications.
- Reviewed well designs including groundwater depth and discharge rate.

## Site Geophysics Engineer | GEO For Services

Jul 2014 – May 2017

- Collected field data using VES (Vertical Electrical Sounding) systems.
- Installed and configured electrodes accurately for field measurements.
- Operated Radar Plus Echo (GPR) devices for subsurface data acquisition.
- Transferred collected data to senior geophysicist for interpretation.

## Lab Chemist | United Co. for Calcium Carbonate

Mar 2013 – Feb 2014

- Monitored the full production process starting from raw material intake.
- Collected samples from the classifiers post-mill for whiteness testing and particle size analysis with procedure Malvern Mastersizer 2000.
- Supervised and adjusted coated calcium carbonate line with Stearic Acid to meet specifications.

## Education

B.Sc. in Geology – Beni Suef University

**Graduation:** May 2011 | **Grade:** Good

## Certifications & Training

- OSHA (General & Construction Safety)
- Soil & Concrete Testing – GARBBLT (General Authority for Roads and Bridges)

## Skills

- Proven expertise in supervising groundwater drilling, quarry operations, and geophysical surveys across diverse regions.
- Strong team work and communication.
- MS Office, Windows, Internet research.
- Strong teamwork, communication, and reliability.

## Interests

In any professional role I take on, I am eager to learn everything related to it and grow within it. I strongly believe that work is the foundation for building a more professional and disciplined environment.
