My Duties and Responsibilities

- To monitor and implement company's and client safety procedure. Ensure that all projects ' personnel are aware and comply with these procedures
- To ensure that approved work permit Program are implemented at site and all work activities are covered by work permit.
- To attend HSE meetings with client and assure that all HSE program are equivalent to construction manual.
- Avoid underground services and make sure not to undermine nearby structures – use safe digging practice and dig away from them.
- Check the excavation & Trenches and retaining walls
- Each day before starting work and after any event that may affect its stability.
- Provide safe access to get in and out.
- Prevent collapse – shore, bench, or batter back. Do not assume ground will stand unsupported.
- Prevent people and materials falling in – with barriers strong enough not to collapse if someone falls against them.
- To monitor hazard identification program with construction people.
- Assess the risk on job site and reduce the risk as low a level as practicable.
- To improve health and welfare of workers on job site by support of management.
- To report all near hits, accident/ incident to client, as per company procedure.
- To investigate all accident/ incident on site and submit report to client.
- To ensure that general housekeeping standard is maintained on sites as per safety requirements.
- Conduct gas test for hot works activities (Welding, cutting and grinding) and confined space entry .
- To conduct pre-job safety meetings and to ensure all emergency procedures are being followed during pre-commissioning & commissioning activities.
- To ensure that all emergency exit routes are clear and standby man for emergency shutdown.
- Issuing work permit to subcontractor's permit receiver after joint site inspection.
- Inspects lifting equipment's, power tools, safety instrument, firefighting equipment and personnel protective equipment.
- Inspection of heavy Equipment as per requirement.
- Inspection of heavy Equipment visually and mechanically.
- Issuing stickers for fitness of equipment.
- Keeping record of equipment and vehicles.
- Daily HSE inspections of work areas.
- Coordinate Permit to Work program.
- Conduct daily routine site inspection.
- Inspection of fire extinguisher monthly.
- To arrange safe system for confined space entries, deep excavation, radiography and working at heights.
- Safety inspection schedule for different areas of the site.
- To coordinate with contactor safety officer.

- Conduct weekly inspection.
- Conduct safety orientation & trainings for the new employees (contractor & sub-contractor).
- Provide Fire Safety Training to employees using power point slides.
- Provide feedback to HSE regarding project activities.
