

SUBHANULLAH

HSE SUPERVISOR (NEOM APPROVED)

NEBOSH IGC + HSE 2 Years Diploma + IOSH + OSHA + DIT + First Aid + IELTS + 4 Years Experience

“

With Health and Safety Engineering Diploma (HSE 2 years) and NEBOSH certification, and a solid foundation, in health and safety, alongside I am IELTS and DIT Certified in which I bring a set of skills to the field of safety. I have an eye for identifying and evaluating hazards and I am experienced in developing and implementing comprehensive safety measures. Additionally I have expertise in conducting overall site risk assessments. My specialization lies in designing and implementing safety management systems performing safety audits and creating safety training programs. My dedication to excellence and my passion for ensuring a work environment make me an asset to any organization that values the wellbeing of its employees and customers. The combination of my NEBOSH certification, HSE Diploma and Safety background, enables me to effectively tackle safety challenges during work.
