PROJECTS

High-Rise Commercial Complexes

Supervised site execution of structural and finishing works for high-rise commercial buildings.

- Ensuring compliance with drawings, safety standards, and project timelines. Coordinated with consultants and subcontractors to maintain quality and progress targets.

Luxury Private Villas

Handled complete site supervision of luxury villa projects, overseeing civil, MEP, and finishing works.

- Ensured high-quality workmanship and timely completion by managing daily site activities, material requirements, and subcontractor performance.

Multi-Storey Residential Buildings

Executed and monitored all site activities for residential building projects, including structural, masonry, and finishing works.

- Ensured adherence to project specifications, drawings, and quality standards while maintaining smooth coordination between site and project management teams.
