Has an in-depth knowledge of Civil Engineering principles and theories. Seeking for a challenging position as a Civil Engineer, where I can use my planning, designing and overseeing skills in construction and help in growing the company to achieve its goal.

## Summary of Qualifications

- Bachelor of Science in Engineering graduate from Israa University
- Skilled in working under pressure to finish all tasks and projects on time with a reliably high level of quality
- Possess excellent oral and written communication skills to convey ideas or instructions in a clear, easily understood manner
- Capable of working in an individual or team work environment and integrate into all team situations easily and comfortably
- Possessing a personable nature that is open to learning and developing new skills while further strengthening the old skills

## Technical Skills

- Knowledge in reading architectural & structural plans, quantity surveying and rain water drainage
- Computer skills: Microsoft Office Suit
- Knowledge in AutoCAD applications and designing in Prokon
- Familiar with MS project

## Experience

JANUARY 2019 – 2025

### **\*Site Engineer / Greater Amman Municipality**

Tasks performed:

- Inspect project sites to monitor progress and ensure design specifications.
- Oversee all construction, maintenance and operations activities on sites.
- Confirm adherence to construction specifications and safety standards by monitoring project progress, inspecting construction site, and verifying calculations and placements.
- 1• Conduct quality control checks to ensure that materials, processes and final outputs meet required standards.
- Organizing materials and ensuring sites are safe and clean.
- Resolve any unexpected technical difficulties and other problems that may arise.

JANUARY 2017 – DECEMBER 2018

### **\*Site Engineer / Greater Amman Municipality**

Tasks performed:

- Check plans, drawings and quantities for accuracy of calculations.
- Ensure that all materials purchased and used as well as the work performed are in accordance with the specifications.
- Day-to-day management of the site, including supervising and monitoring the site labor force and the work of any subcontractors.
- Prepare daily and monthly reports as required.

JANUARY 2015 – DECEMBER 201

**\*Site Engineer in bahrin/ bawab Contracting**

**2025- present**

**Bin faqeeh school (project)**

Tasks preformed:

- Inspect project sites to monitor progress and ensure design specifications.
- Oversee all construction, maintenance and operations activities on sites.
- Confirm adherence to construction specifications and safety standards by monitoring project progress, inspecting construction site, and verifying calculations and placements.
- 1• Conduct quality control checks to ensure that materials, processes and final outputs meet required standards.
- Organizing materials and ensuring sites are safe and clean.
- Resolve any unexpected technical difficulties and other problems that may arise

**Surveyor / Greater Amman Municipality**

Tasks preformed:

- Ensure all equipment and technology are properly maintained and calibrated.
- Conduct site surveys to gather data and measurements.
- Taking measurements of distances and angles on a property or section of land in order to establish legal boundaries.
- Performing mathematical calculations to determine and confirm surveying measurements.

**Education**

SEPTEMBER 2015 – JULY 2018

**Bachelor of Science in Civil Engineering / Isra University**

OCTOBER 2012 – JUNE 2015

**Surveying / The Intermediate University College**

**Affiliations**

Certifies by the Jordanian Engineering Association.
