 Saudi Arabia

OBJECTIVE

A motivated and detail-oriented Architect with a Diploma in Architectural Construction from the Technical College (2025). Skilled in preparing execution drawings, site supervision, and ensuring project quality and compliance with design standards. Seeking to join a professional engineering team where I can apply my technical and field skills, contribute to project excellence, and continuously develop my professional abilities.

EDUCATION

Diploma in Architectural Construction

Technical College – Kingdom of Saudi Arabia

Graduation Date: May 2025

EXPERIENCE

Al-Rashed A Beton Company

Trainee – Quality Control (QC) Department

Duration: 4 months

- Assisted in monitoring the quality of construction materials.
- Participated in testing samples and preparing quality reports.
- Supported production site inspections to ensure compliance with specifications.
