## OBJECTIVE

As a mega project's construction manager, I'm looking forward to having the chance to participate constructing a new project leading a united team of engineers, supervisors and labours to construct and deliver the project within budget, as per quality standards for the project as well as respecting project timeline.

## PROJECTS

**As an employer of first-class contracting companies, I was part of teams those had honour to join and deliver many mega projects (Civil Work + Fit Out) as:**

- WTP for leather tanneries zone in Cairo Governorate
- Drinking water purification station in Giza Governorate
- Sewage treatment plant construction in Suez Governorate
- 1500 Housing Units in Algeria using Tunnel formwork construction strategy
- Rod AL-Farag Corridor Bridges in Cairo Government
- Rolling Mill 3 for Suez Steel Factories company (Senior)
- Al Jazi Mall in Cairo Government using post tension construction strategy (CM)
- LEKELA Wind Farm for renewable energy authority in Red Sea Governorate (SIEMENS GAMESA JV)
- Rolling Mill 4 for Suez Steel Factory
- Rehabilitation of Saudi Tourism Authority new building in Riyadh (Phase 2 Project Manager)
- IFFCO Culinary & Cream Factory construction in Dammam (Project Manager)

## COMMUNICATION

My communication skills have been enriched through working in mega projects as well as first-class companies. Arabic is the mother tongue but also, I'm good in speaking and writing in English as I worked with a multinational consultants, developers and clients.

## LEADERSHIP

I have demonstrated strong leadership skills in managing the resources and overseeing the daily progress. I have enriched my experience in providing guidance and support to employees, motivating them, setting performance expectations and providing positive feedback, and addressing issues as they arise.
