Senior Infrastructure Project Manager | Aramco-Approved

+966 54 686 6180 | Alsaeed65@gmail.com | www.linkedin.com/in/alsaeedshamloui | Al
Khobar, Saudi Arabia

Professional Summary

Senior Project Manager with over 30 years of experience delivering mega-infrastructure and civil construction projects in Saudi Arabia and Qatar. Expert in managing full project lifecycles for Saudi Aramco, specializing in utilities, roadworks, and industrial facilities. Proven track record of delivering projects on time and under budget while maintaining exceptional safety standards, including 9,000,000 LTI-free man-hours. Aramco-approved with advanced certifications including PgMP, PMP, and PMI-RMP. Seeking a Senior Project Manager or Director role to contribute to Saudi Vision 2030 infrastructure goals.

Core Competencies

- **Project Management:** Mega-Project Leadership (\$320M+), Budgeting & Cost Control, Schedule Optimization (Primavera P6, MS Project), Risk Management & Mitigation, Value Engineering, Contract Negotiation & Administration, Claims Management, Project Execution Plan (PEP), Construction Management Plan (CMP)
 - **Infrastructure & Civil Works:** Utilities, Sewage Systems (RTR), Potable Water (DI), Storm Water, Roadworks, Asphalt, Earthworks, Lift Stations, MV/LV Networks, Street Lighting, Substations
 - **Construction Expertise:** Saudi Aramco Standards & Procedures, Precast & Cast-in-Site, Steel Structures, Quality Assurance & Control (QA/QC), Procurement, Vendor Management, Technical Submissions, Shop Drawings
 - **Leadership & HSE:** Cross-Functional Team Leadership (2000+ personnel), Stakeholder Communication, HSE Management, OSHA Standards, Zero LTI Culture, Safety Program Implementation
-

Professional Experience

Project Manager | Nesma & Partners Contracting Co. | Shyba, Saudi Arabia | February 2022 – Present

Client: Saudi Aramco - Defense Support Facilities (Infrastructure Package) | Value: 570 Million SAR

- Directed the infrastructure package for a major Aramco defense facility, managing utilities including 12 km sewage, 15 km potable water, 10 km MV cables, and 18 km of asphalt roadworks.
- Successfully maintained project schedule despite global supply chain challenges by implementing proactive procurement strategies for long-lead items.
- Reduced material waste by 15% through rigorous inventory tracking and management, achieving significant cost savings.
- Managed all technical submissions, ensuring 100% compliance with Aramco design criteria and standards.
- Led daily progress reviews and coordinated multiple subcontractors to ensure seamless interface between civil and MEP activities.

Project Manager | Al Yamma Contracting | Jizan, Saudi Arabia | December 2014 – January 2022

Client: Saudi Aramco - Industrial Support Facility (ISFB) | Value: \$320 Million USD

- Delivered a complete \$320M industrial city infrastructure project on schedule and under budget, achieving a Cost Performance Index (CPI) and Schedule Performance Index (SPI) greater than 1.0.
- Implemented a world-class safety program, achieving a record 9,000,000 man-hours without a Lost Time Injury (LTI).
- Managed the entire infrastructure scope: 22 km sewage, 25 km potable water, 18 km MV/28 km LV cables, a substation, 700 street lights, and 28 km of asphalt.
- Established the project execution framework, including the Construction Management Plan (CMP), Risk Register, and Baseline Schedule.
- Led a workforce of over 2,000 employees and 120 staff, including 6 construction managers and 18 site engineers.

Project Manager / Senior Construction Manager | TADMUR Contracting | Qatar | January 2008 – September 2014

Project: Qatar University Research Complex & Seven Schools | Value: \$250 Million USD

- Led the team to deliver the project on schedule and within budget, exceeding all performance indices.

- Achieved 6,000,000 man-hours without a Lost Time Injury (LTI).
 - Managed all civil and infrastructure works for the university complex and seven schools, including parking shades and full utility networks (sewage, water, dry utilities).
 - Directed a team of 1,500+ personnel and managed all technical submittals, shop drawings, and client billing.
-
