## Technical Skills

- Quality Assurance & Control
- Civil & Structural Inspections
- Road & Utility Inspections
- Material Testing & Compliance
- Project Documentation & Reporting
- Snagging & Punch List Management
- Site Supervision & Coordination
- Contractor & Consultant Coordination
- Technical Document Review
- Laboratory Testing Coordination
- HSE Compliance
- Project Closeout Procedures
- TPI Witnessing
- Survey & Alignment Checks
- Inspection & Test Plans (ITP)
- Non-conformance Reporting (NCR)
- Progress Monitoring
- AutoCAD Drafting
- Communication & Leadership
- Problem-Solving & Decision-Making

## Professional Summary

Dynamic and results-oriented Civil **QA/QC Inspector** with over 12 years of diversified GCC experience in Civil Technology across Oil & Gas Plants, Infrastructure developments, FIFA Stadiums and Qatar Rail Metro Stations. Approved by **Qatar Kahramaa** as a QA/QC Engineer. Proven expertise in contracting and consultancy roles, managing projects from initiation to completion, including snagging and closing punch items. Proficient in **inspection and testing activities, ITP** and method statement preparation, **material verification, concrete and structural works** and **nonconformance management**. Well-versed in **Qatar Construction Standards (QCS 2014), Qatar Gas, and Aramco codes**. Strong communication skills in Arabic and English. Seeking challenging opportunities to leverage expertise in quality assurance, compliance, and project execution.

## Work Experience

### AL JABER ENGINEERING W.L.L (JEC)

Project no. D7264

Project Cost: 700 million QAR

Client: Qatar Gas

Position: SENIOR QA/QC INSPECTOR

Jan 2022 – Dec 2024

### AL JABER HADEED CONSTRUCTION W.L.L (JH CONS) – Doha, Qatar

**QA/QC Inspector | Interim Improvement of the B Ring Road, Al Mannai and Guest Pal Experience Project**

Client: ASHGHAL | Project No: C2019/22

Apr 2019 – Dec 2021

Project Cost: 475 million QAR

### JMC INERNY ACON W.L.L – Doha, Qatar

**Civil QA/QC Inspector | Qatar Rail, Al Rayyan Stadium, E Ring Road Bridge / C-733 RIW for Junction R/A Phase-9**

Client: PWA (Supreme Committee)

Feb 2017 – Jan 2019

Project Cost: 200 million QAR

### AL BAWAKER TRADING & CO LTD – Saudi Arabia

**Civil QA/QC Inspector | Infrastructure Projects**

Client: Sakhra Al Arabia | Consultant: Arabian Consultant Engineering Center

Jan 2014 – Jan 2016

Project Cost: 350m SAR

### HARDBORN INTERNATIONAL PVT LTD – Pakistan

**Junior Site Engineer | DHA Phase 6 Development Project**

Client: Communication and Works Department

Dec 2012 – Dec 2013

## **Role and Responsibilities**

### **Quality Assurance & Compliance**

- QA/QC Management: Ensure compliance with international standards, project specifications, QCS 2014, and contract requirements by reviewing PQP, technical documents, and contracts to guarantee seamless project execution.
- Regulatory Compliance: Maintain continuous alignment with local laws, regulations, and group standards, verifying that all quality activities meet client and project-specific requirements.
- Managed Quality Audits: Lead quality audits to assess the effectiveness of QC processes and identify areas for improvement.
- Monitored Sub-contractor Compliance: Supervise sub-contractor QC programs to ensure adherence to project specifications and quality standards.
- Corrective Actions: Monitor and verify implementation of corrective and preventive actions, ensuring swift resolution of non-conformances and fostering continuous improvement in project quality systems.
- Managed NCRs and Corrective Actions: Address quality issues by implementing and following up on corrective measures to prevent recurrence.

### **Inspection & Testing Coordination**

- Material Testing: Supervise and coordinate laboratory and field testing of construction materials, ensuring compliance with project standards, acceptance criteria, and timely delivery of TPI witness reports.
- Coordinated Third-party Testing: Work with external agencies for independent testing and verification to ensure unbiased quality control.
- Site Inspections: Conduct comprehensive material receiving inspections (MIR) and prepare RFI (Request for Inspection) documents in accordance with ITP, guaranteeing that approved materials and equipment meet project specifications.
- Conducted Site Inspections: Perform regular inspections to verify compliance with quality standards and project specifications.
- Testing Oversight: Witness and validate tests on concrete, soil, asphalt, and water (e.g., slump test, FDT, DFT, TDS), ensuring accuracy and alignment with client requirements and international codes.

### **Documentation & Reporting**

- Quality Documentation: Prepare, review, and update quality logs including MAR, IRE, MIR, calibration, and NCR logs to ensure accurate records for audits and project compliance.
- Reviewed QC Documentation: Analyze quality control documents, including logs and reports, for completeness, accuracy, and compliance.
- Maintained Quality Records: Ensure all project quality records are up-to-date, traceable, and accurately maintained for audit readiness.
- Quality Reporting: Generate weekly and monthly inspection activity reports detailing material inspections, non-conformances, and site quality status to support informed decision-making.
- Document Control: Collaborate with document controllers to maintain effective control over quality records, ensuring timely retrieval and compliance with record-keeping standards.

### **Team Coordination & Client Interface**

- Client & Consultant Coordination: Lead and coordinate site visits with clients, consultants, and third-party agencies to ensure alignment of project quality requirements and inspections.
- Team Leadership: Monitor and assign tasks to the quality control team, promoting sustainable quality control practices and enhancing team performance through continuous feedback and training.
- Facilitated Quality Training: Provide quality training sessions and toolbox talks to enhance workforce awareness and understanding of quality standards.
- Training & Communication: Conduct toolbox talks and quality awareness sessions to promote understanding of quality standards, improving project execution and compliance.

### **Project Execution & Continuous Improvement**

- Construction Monitoring: Review IFC and shop drawings to ensure proper construction methods and adherence to quality standards prior to execution of works.
- Quality Improvement: Assist the QA/QC Manager in implementing and refining quality management procedures, facilitating audits, and addressing gaps in quality systems.
- Project Close-out: Oversee project punch list, snagging, and final inspections to ensure completion meets client expectations and contractual requirements.

- Approved From Ashghal As A CIVIL QA/QC INSPECTOR
- Qatar Kahramaa Approved QA/QC Engineer
- First Aid Training | Confined Space Awareness | Heat Stress Course | Fire Fighting
- Manual Material Handling | Working at Height | Office Management
- Proficient in Microsoft Office Suite (Word, Excel, PowerPoint)

Dear Hiring Manager,

I am writing to express my interest in the position of Civil QA/QC Inspector. With over 12 years of diversified GCC experience across Qatar, Saudi Arabia, and Pakistan, I bring a comprehensive understanding of civil construction, quality assurance, and project compliance. My tenure at Al Jaber Hadeed Construction, where I oversaw large-scale infrastructure projects, has equipped me with a deep knowledge of site inspections, material compliance, and client coordination. My approval from Asghal and Qatar Kahramaa as a QA/QC Engineer further underscores my technical competence and commitment to quality standards.

I pride myself on my ability to manage projects efficiently from inception to closeout, ensuring adherence to local regulations, international standards, and client specifications. My hands-on experience with road, utility, and infrastructure projects enables me to deliver high-quality results while maintaining strong working relationships with contractors, consultants, and clients. With a proven track record of delivering projects on time and within budget, I am confident in my ability to contribute significantly to your team.

I welcome the opportunity to discuss how my skills and experiences align with your requirements. Thank you for considering my application. I look forward to the possibility of contributing to your organization's success.

Best regards,

Muhammad Junaid Hameed
