 Sultan Neyaz

Professional Summary

A dedicated and result-oriented Mechanical Engineer, I hold a Bachelor's degree in Mechanical Engineering from Taibah University, Madinah, and have garnered extensive practical experience from my work with MOBCO Civil Construction, Saudi Electricity Company, and the Municipality of Madinah. My area of expertise includes managing complex mechanical projects, overseeing construction processes, and handling mechanical systems such as sewage disposal, fire prevention, air conditioning, and pump operations. My exceptional collaborative, organizational, and time management skills make me well-prepared to handle challenging roles in the mechanical engineering field.

Education

Taibah University, Madinah, Saudi Arabia	2016 - 2021
Bachelor of Mechanical Engineering	

Memberships

Mechanical Engineer, Saudi Council of Engineers	ID: 781645
--	-------------------

Experience

Project Manager, Spectra Support Services Company, at the Ministry of Commerce Building, Madinah, Saudi Arabia
Sep2023 – Present

Mechanical Engineer, MOBCO Civil Construction, Madinah, Saudi Arabia	Sep 2021 - Aug 2023
---	----------------------------

- Overseeing several mechanical projects, including a government-owned school complex for TBS and the Ministry of Education.
- Managing mechanical tasks such as sewage disposal, fire system implementation, air conditioning system maintenance, and pump operations.
- Demonstrating strong collaborative skills by working with a team to ensure project deadlines are met and quality work is consistently delivered.
- Exhibiting the ability to work under pressure, maintaining the quality and efficiency of work.

Mechanical Engineering Trainee, Municipality of Madinah, Madinah, Saudi Arabia	Jun 2021 - Aug 2021
---	----------------------------

- Worked at the Operation and Maintenance Department where I assisted with the operations and maintenance of municipal facilities, gaining practical experience in the field of Mechanical Engineering.

Mechanical Engineering Trainee, Saudi Electricity Company, Madinah, Saudi Arabia	Summer of 2017, 2018, 2019
---	-----------------------------------

Courses

General Industry Health and Safety Certification (OSH Academy)	2021
---	-------------

Skills

- **Mechanical Systems Supervision:** Extensive knowledge and experience in overseeing various mechanical systems, including sewage disposal, fire prevention, air conditioning, and pump operations.
- **Project Management:** Proven ability in managing multiple projects concurrently, ensuring timely and successful completion of each project.
- **Construction Supervision:** Adept at overseeing construction processes to ensure quality and conformity to project specifications.
- **Microsoft Office:** Skilled in using various Microsoft Office programs including Word, Excel, and PowerPoint.
- **Technical Troubleshooting:** Strong skills in identifying and resolving mechanical and operational issues, honed through hands-on experience during my tenure at MOBCO Civil Construction and training at Saudi Electricity Company.
- **Health and Safety Practices:** Certified in General Industry Health and Safety from OSH Academy, ensuring adherence to industry safety standards during all project execution phases.
- **Technical Software Proficiency:** Familiar with using engineering software for designing, drafting, and simulating mechanical systems.
- **Team Collaboration & Communication:** Demonstrated ability to work effectively within a team, fostering a positive and productive work environment.
- **Time Management:** Proficient in managing time effectively to prioritize tasks and meet project deadlines.
- **Analytical Thinking:** Excellent problem-solving abilities through methodical evaluation and analysis of technical issues, aiding in effective decision making.
