CAREER OBJECTIVE

A fresh graduate Civil Engineer with a solid academic foundation and initial field experience. I am eager to gain broader practical experience through participation in diverse engineering projects, while developing my skills in design, construction, and project management to contribute effectively to achieving the objectives of the organization I work with.

TRAINING

Intern at Makkah Municipality (Summer 2023)

May 2023 - July 2023

- Assisted in the supervision of municipal infrastructure projects.
- Applied engineering knowledge to assess drawings and conduct field observations.
- Reviewed urban planning documentation and verified contractor work quality.

Intern Binladen Group Al-Haramain Project (Summer 2024)

May 2024 - July 2024

- Participated in large-scale construction site supervision at the Holy Mosque expansion.
- Monitored structural activities, ensured compliance with safety standards, and reported daily progress.
- Gained practical experience in coordination, concrete work inspection, and rebar detailing.

EDUCATION

Bachelor's Degree in Civil Engineering

2021 - 2025

Graduation Project: Surveying, Planning and Structural Design of Petroleum Station at UQU Campus
