Riyadh, Saudi Arabia | +966 0569498117 | Mostafashreif35@gmail.com | [linkedin.com/in/mostafa-sherif-7487771b6](https://www.linkedin.com/in/mostafa-sherif-7487771b6)

Profile

Detail-oriented Quantity Surveyor and Technical Office Engineer with over 6 years of experience in cost estimation, quantity take-offs, tender preparation, and project controls for major infrastructure projects. Proven ability to manage technical documentation, prepare accurate Bills of Quantities (BOQs), and coordinate between stakeholders to ensure projects are delivered on time and within budget. Proficient in industry-standard software including AutoCAD, Civil 3D, Revit (BIM), Primavera P6, and Oracle Primavera Unifier to drive efficiency and accuracy.

Skills

Technical Software Proficiency

- AutoCAD, Civil 3D.
- Revit or BIM (Building Information Modeling) ·
- Microsoft Excel.
- Sap2000, ETABS, CSICOLUMN, SAFE.

Technical Expertise

- Construction Documentation and Reporting
- Strong knowledge of construction materials, methods, and building codes.
- Ability to interpret technical drawings, specifications, and contracts.
- Strong knowledge of health, safety, and environmental regulations.

Soft Skills

- Strong organizational and time-management skills.
- Teamwork and Collaboration.
- Legal and Contractual Knowledge.
- Adaptability and Continuous Learning.
- Attention to Detail and Problem-Solving.
- Excellent Communication with different teams.

Languages

- Arabic (Native)
- English (very good)

Experience

Quantity Survey Engineer – Tender Department| COMBINED GROUP CONTRACTING COMPANY- Riyadh | March 2025 – present

- Review tender documents including drawings, specifications, BOQs, and contract conditions.
- Identify any discrepancies, ambiguities, or missing information in the design documents and request clarification.
- Work closely with the Cost Estimation team by providing them with accurate quantity data to develop project budgets and bids.
- Provide material quantities for procurement.
- Estimate costs of materials, labor, equipment, and subcontracted works.

Quantity Survey ENGINEER | ROWAD MODERN ENGINEERING – AIN SOKHNA | NOV. 2024 – March2025

SAINT GOBAIN AS2 PROJECT (Factory)

- Ensure that all financial obligations (payments, claims, variations) are tracked and processed in a timely manner with **Oracle Primavera Unifier**.
- Preparing structural shop drawings and detailed technical reports.
- Review and analyze project drawings, specifications, and documents to ensure accuracy and compliance with project requirements.
- Provide detailed breakdowns of labor, materials, equipment, and overhead costs for project budgets.
- Prepare accurate and detailed cost estimates for construction projects based on project specifications, drawings, and other project documentation.

TECHNICAL OFFICE ENGINEER | HASSAN ALLAM - 6TH OF OCTOBER | JUNE 2023 – NOV. 2024

High Speed Train (Bridge)

- Support on-site engineers with technical guidance and resolve any design issues during construction.
- Develop project schedules and track progress, ensuring that project deadlines and milestones are met.
- Analyze cost variations and adjust cost estimates as necessary to ensure the project stays within budget.
- Monitoring construction costs during the execution of project and preparing reports to head office.
- preparing the quantity sheets and the invoices for the (subcontractors & suppliers).

TECHNICAL OFFICE ENGINEER | HASSAN ALLAM - KHUR OF MAY | JAN. 2023 – JUNE. 2023

High Speed Train (Highest Bridge in Egypt 75m high)

- Identify potential financial risks and recommend mitigation strategies.
- Track and evaluate changes to the project scope, providing cost estimates for any variations and ensuring proper documentation.
- Assist in identifying potential risks to the project, including delays, cost overruns, and technical challenges.
- Draft and review contracts and agreements to ensure compliance with legal requirements and project specifications.

TECHNICAL OFFICE ENGINEER | HASSAN ALLAM - LUXOR | JAN. 2021 – JAN. 2023

North Luxor Axis (The project consists of 11 bridges and a bridge that crosses the Nile River 22km)

- Coordinate with designer, contractors, clients, and other team members to ensure smooth flow of information and updates on the project.
- Support the preparation of tender including terms and conditions, specifications, and cost estimates
- Create reports, technical specifications, and project manuals to ensure all necessary documentation is in place.
- Ensure that all final drawings and documents reflect the actual construction as it was built.
- Keep up to date with the latest engineering tools, technologies, and methodologies (Cantilever Carriage System).

• SITE ENGINEER | HASSAN ALLAM - CAIRO | JAN. 2020 – JAN. 2021 civilization

museum (Bridge 9.4km)

- Executed different designs) slab on pile, slab on precast beams, box sections, mono pile, Steel spans).
- Collaborate with project managers and contractors to develop realistic timelines for project completion.
- Oversee the financial aspects of the construction, ensuring that the project stays within the approved budget.
- Ensure that construction work meets the quality standards defined in the project specifications and that materials and workmanship are up to required standards.
- Provide regular updates to the project owner regarding the project's progress, financial status, any issues, and mitigation plans.
- Ensure that the necessary resources (materials, labor, equipment) are available on-site when needed, coordinating with suppliers and subcontractors.
- Ensure that sustainable construction practices are being followed and that environmental impacts are minimized during construction.

Certifications

- **BIM** (Building Information Modeling) in **Niqat Global** (current diploma)
(Revit, Primavera P6, Civil3D)
- **Steel design diploma at Civil Academy**
(STAAD, TEKLA, LIMCON, RAM connection, HILTI, SAP200).
- **Software Designing programs at CASBEC** (AUTOCAD, SAP2000, ETABS, SAFE, CSICOL).
- **HSE** course with **Arab Contractors Company**

Education

BACHELOR IN CIVIL ENGINEERING | JULY 2019 | OCTOBER 6TH UNIVERSITY, GIZA, EGYPT

Grade: very good

Graduation project: Structural analysis and design for (Villa, High rise, Hall, Tank) Project

grade: Excellent
