OBJECTIVE

Experienced maintenance mechanical engineer seeking to secure a responsible career opportunity to fully utilize my training, skills, and experience, while making a significant contribution to the success of your respected company. Heavy equipment/trucks background experience added to light vehicles.

WORK EXPERIENCE

Workshop Manager | Musanadah Transportation Company (AbdelMohsin Altamimi Group), Saudi Arabia (2024 – RECENT).

- Handling the operation and maintenance of the company workshop.
- Purchasing equipment/vehicles as necessary for every project.
- Following up on maintenance with workshop supervisor and on-site supervisor.
- Spare parts requesting procedure/stock management.
- Preparation of the fleet for the benefit of the projects as per their necessity.
- Hiring qualified personnel capable of dealing with the pressure of work.
- Delivering/fulfilling client demands.
- Prepare and improve the workshop to facilitate maintenance service.

Preventive Maintenance Manager | Al-Shalawi Contracting Int'l Holding (Neom Projects), Saudi Arabia (2021 – 2024)

- Implementation of preventive maintenance for equipment working on the project.
- Follow up on preventive maintenance plan execution.
- Request necessary consumable parts and filters as per the plan of preventive maintenance.
- Performing orientations and training for the team to perform the preventive maintenance plan as required and on time.
- Dividing the teams as per the necessity of work to cover all sites, and to compensate for any unplanned issues that may occur during the work.

- Provide daily and weekly updated reports showing KPI's, utilization of employee's and progress of the plan put on PM.

Maintenance Workshop Manager | Al-Shalawi Contracting Int'l Holding (Central Workshop + AlRayn-Bisha Road Establishment Project) – Al-Khobar, Saudi Arabia (2021 – 2024)

- Standardize/optimize spare parts inventory, stock management, and coordination of the ordering of spares in conjunction with the maintenance planners and warehouse personnel.
- Root cause failure analysis (RCFA) and data collection of chronic equipment failures.
- Provide engineered improvements to equipment.
- Interface with outside vendors to improve process/equipment overhauls.
- Update equipment history and maintain equipment specification, manuals, and associated databases.
- Provide weekly reports, perform PM form updates, attend meetings and prepare monthly timesheets.

Maintenance Engineer | Staunch Machinery, Lebanon (2017 – 2018)

RESPONSIBILITIES:

- Test, maintain, or repair electrical power distribution machinery or equipment, using hand tools, power tools, and testing devices.
- Review logs, datasheets, or reports to ensure adequate production levels and safe production environments, or to identify abnormalities with power production equipment or processes.

Automotive Mechanic | Saida Mechanic Workshop, Lebanon (2015 – 2017)

RESPONSIBILITIES:

- Learned basic car maintenance skills, including changing oil, checking fluids, and replacing filter, lights, and wipers.
- Documented all repairs and inspections with 97% accuracy.
- Built relationships with 30+ customers per day by answering questions and offering maintenance advice.
- Established communication lines with clients and checked in after appointments, increasing client satisfaction by 38%
- Completed 480+ repair jobs, including repairing/replacing worn brakes, injector clogs, old tires, and faulty spark plugs.
