PROFESSIONAL SUMMARY

A highly knowledgeable and dedicated Safety Professional with expertise in developing, implementing, and managing workplace health and safety programs. Skilled in hazard identification, risk assessment, and regulatory compliance to ensure safe working environments. Experienced in conducting safety audits, training sessions, and incident investigations to promote a proactive safety culture. Adept at collaborating with management and employees to maintain standards aligned with local, national, and industry-specific safety regulations (such as OSHA, NEBOSH, or other relevant frameworks). Committed to continuous improvement and fostering a workplace where safety is a shared responsibility.

WORK HISTORY

Safety officer 12/2023 - Current
Saudi Icon Company - Riyadh, KSA

Safety officer at DGCL-Dirriyah, Riyadh Metro & New Murabba (NMDC) Project

1. Conduct Safety Inspections and Audits

- Regularly inspect work areas, tools, and equipment to ensure compliance with safety regulations and internal standards

2. Identify and Mitigate Hazards

- Perform risk assessments and implement control measures to eliminate or minimize workplace hazards

3. Ensure Legal and Regulatory Compliance

- Stay up to date with occupational health and safety laws (e.g., OSHA, Nebosh) and ensure the organization complies with all applicable regulations

4. Develop and Implement Safety Policies

- Create, update, and enforce safety policies and procedures to promote a safe working environment

5. Conduct Safety Training and Awareness Programs

- Train employees on safety procedures, proper use of PPE, emergency response, and accident prevention

6. Investigate Incidents and Accidents

- Lead incident investigations to determine root causes and recommend corrective actions to prevent recurrence

7. Maintain Safety Records and Reports

- Keep detailed records of inspections, training, incidents, and compliance audits; prepare reports for management and regulatory agencies

8. Coordinate Emergency Drills and Preparedness Plans

- Organize fire drills, evacuation procedures, and emergency response training to ensure preparedness for emergencies

9. Promote a Safety-First Culture

- Encourage employee involvement in safety initiatives and foster a proactive safety culture throughout the organization

10. Report to Management and Recommend Improvements

- Advise management on health and safety matters and suggest improvements to processes or conditions
