Education

Bachelor of Engineering – Civil

- Sri Venkateswara Institute of Science and Technology, Anna University, Thiruvallur, India
- Jun 2010 – Apr 2014

Intermediate

- G.H.S.S, Keelarajakularaman, Rajapalayam
- 2008 – 2010

Matriculation

- G.H.S.S, Keelarajakularaman, Rajapalayam
- 2006 – 2008

Personal Details

- Father's Name:** Subburam P.
- Mother's Name:** Velammal S.
- Date of Birth:** 12-Jun-1993
- Marital Status:** Married
- Nationality:** Indian
- Passport No:** X5761916
- Transferable Iqama**
- Permanent Address:** S/O,P.Subburam,187-B SouthStreet,Peyampatti,Keelarajakularaman(Po), Rajapalayam(Tk),Virudhunagar(Dt)-626136, India.

Hobbies

- Listening to songs
- Playing Kabaddi
- Playing Carom board
- Reading books
- Event coordination

Summary

Senior Quality Engineer & Consultant with 12 years of experience in construction and civil engineering projects, specializing in quality assurance, quality control, compliance management, and project delivery for large-scale infrastructure, residential – High Rise Apartment and Villa developments Projects, Commercial Projects and Batching Plant quality control, including design, structural, and finishing works. Proven ability to lead quality assurance and quality control processes, manage inspections, and coordinate effectively with clients, consultants, and contractors to deliver projects on time and in full compliance with standards. Proficient in quality monitoring, documentation, and execution of construction activities in accordance with ISO 9001:2015 and other relevant standards. Seeking a challenging role to leverage my expertise in quality management and contribute to organizational growth and project excellence.

Experience

Senior Quality Engineer – Civil

Al Rashid Trading & Contracting Co. – Riyadh, KSA

Feb 2024 – Oct 2025

Client: Diriyah Gate Company Limited (Diriyah Project)

Consultant: JACOBS

- Led quality assurance activities for large-scale infrastructure projects, overseeing earthworks, utilities, substation, and pump station construction.
- Conducted daily inspections and material testing, ensuring that all construction activities met project specifications and regulatory requirements.
- Managed NCR closures, developed root cause analysis, and coordinated corrective actions to resolve quality issues promptly.
- Coordinated with consultants and subcontractors to ensure compliance with approved drawings, project requirements, and industry standards.
- Facilitated the preparation and submission of detailed QA/QC reports to track progress and ensure quality alignment with project goals.
- Promoted continuous improvement in quality management processes, minimizing defects and ensuring adherence to timelines.
- Ensured proper material inspection and testing, working closely with vendors to ensure materials met project specifications.

Senior Quality Engineer – Civil

G Square Group – Coimbatore, India

Mar 2023 – Feb 2024

- Managed quality control for large-scale residential developments, ensuring compliance with design specifications for road formation and infrastructure work.
- Conducted audits and quality inspections for precast and cast-in-situ construction activities, ensuring adherence to project quality standards.
- Coordinated and verified the installation of underground utilities, including completing necessary quality checks and inspections.
- Worked closely with consultants and vendors to resolve issues and ensure compliance with design specifications and materials quality.
- Conducted thorough inspections of site activities to ensure alignment with safety and quality standards, maintaining high-quality project deliverables.
- Generated and maintained detailed reports on quality inspections, audits, and non-conformities, communicating them to project managers and stakeholders.
- Managed material inspections, ensuring that all delivered materials conformed to specifications and passed required quality tests.

Senior Quality Engineer – Civil

Sobha Developers Limited – Coimbatore, India and Dubai, UAE

Apr 2019 – Mar 2023

Sobha Hartland Creek Vistas Reserve (8 million sq. ft.)

- Project:** 33 floors each, with the towers perched on a three-level podium to provide views.

Skills

Quality Assurance & Control:

- Extensive experience in overseeing quality assurance and quality control activities for large-scale infrastructure, residential, and commercial construction projects, ensuring compliance with design specifications and industry standards.

Inspection & Testing:

- Proficient in conducting daily inspections, material testing, and audits to verify adherence to project requirements, safety regulations, and quality standards.

Non-Conformance Management:

- Skilled in managing Non-Conformance Reports (NCRs), developing root cause analysis, and implementing corrective actions to resolve quality issues and prevent defects.

Vendor & Consultant Coordination:

- Strong ability to collaborate with consultants, subcontractors, and vendors to ensure the timely delivery of quality materials and adherence to project specifications.

Reporting & Documentation:

- Expertise in preparing and maintaining detailed QA/QC reports, including inspections, audits, and non-conformance documentation, for effective project tracking and client submissions.

Continuous Improvement:

- Focused on promoting continuous quality improvement processes, minimizing defects, and ensuring project timelines are met without compromising quality.

Team Leadership & Training:

- Led and trained teams in quality control processes, fostering a culture of continuous improvement and ensuring that quality standards were consistently met across all project stages.

Material Compliance & Certification:

- Expertise in managing material inspections, ensuring that all materials used in construction meet project specifications and pass necessary quality tests, while overseeing the certification process for construction materials.

Computer Skills

- **Microsoft Office Suite** (Word, Excel, PowerPoint, Outlook)
- AutoCAD
- ACONEX

Certifications

- Registered with the Saudi Council of Engineers
- ISO 9001:2015 Certified

Trainings

In-plant Training

- NAVIN'S Housing and Properties (P) Ltd.

In-plant Training

- Karpaga Vinayaga Builders and Promoters

Sobha Verdure in Veerakeralam, Coimbatore (4.54 Acres)

- **PMC:** Facilities and Building Solutions (FABS)
- **Project Type:** Luxurious Villas – 44 units
- **Project:** G+3 Luxurious Villas with Clubhouse, Underground STP & Swimming Pool.

Responsibilities:

- Led quality inspections for high-end residential villas and large commercial complexes, ensuring compliance with design specifications and quality standards.
- Oversaw the construction of underground sumps and sewerage treatment plants, ensuring that all systems met environmental and regulatory standards.
- Conducted laboratory and on-site tests to validate material quality, ensuring compliance with project requirements.
- Managed relationships with vendors, ensuring the timely delivery of high-quality materials and resolving any supply chain issues.
- Identified non-conformities and implemented corrective actions, maintaining high standards of quality throughout the project lifecycle.
- Worked directly with PMC to ensure that all construction activities met the project's quality and design requirements.
- Prepared comprehensive quality reports and maintained detailed project documentation to track quality compliance throughout the project.

Quality Engineer – Civil

Casa Grande Civil Engineering Pvt. Ltd. – Coimbatore, India

Feb 2017 – Mar 2019

- Performed quality assurance for residential villas, apartments, and commercial projects, ensuring that all activities complied with design specifications.
- Conducted regular site inspections to monitor construction processes, ensuring that quality standards were consistently met.
- Managed material testing, ensuring compliance with quality standards and overseeing certification processes for construction materials.
- Assisted in preparing and maintaining quality documentation, including inspection reports and quality audit results.
- Led snagging inspections and ensured the timely closure of non-conformities before project handover.
- Assisted in developing and implementing QMS documents and checklists for quality assurance.
- Coordinated with project consultants to resolve any quality-related issues and ensure smooth project execution.

QA & QC Incharge – Civil - Batch Plant

SRM Civil Works Pvt. Ltd. – Chennai, India

March 2016 – Jan 2017

- Managed quality assurance for ready-mix concrete production, ensuring that all materials complied with project requirements and industry standards.
- Led a team of QA/QC engineers to ensure that all construction activities adhered to established quality control protocols.
- Conducted thorough inspections of concrete mixing, batching, and delivery, ensuring compliance with project specifications.
- Coordinated with clients, consultants, and subcontractors to resolve quality-related issues and ensure that the project adhered to timelines.
- Identified non-conformities and implemented corrective actions to maintain high quality and prevent defects during construction.
- Maintained quality records, conducted audits, and prepared detailed reports for review and client submissions.
- Contributed to the continuous improvement of quality control processes, minimizing defects and improving efficiency.

QA & QC Engineer – Civil – Batch Plant

SRM Civil Works Pvt Ltd – Chennai (Porur)

May 2015 – March 2016

- Assisted in sampling and testing concrete to ensure compliance with relevant quality standards and project requirements.
- Prepared inspection checklists, detailed quality reports, and certifications to ensure quality compliance for all materials used.
- Worked closely with senior engineers to resolve non-conformance issues and ensure corrective measures were implemented on-site.
- Worked with site teams to implement best practices in quality assurance and foster a culture of continuous improvement.
- Verified the quality of materials used in construction and ensured they met the required project specifications.
- Managed the documentation process, ensuring proper storage and retrieval of quality-related reports and certificates.
- Assisted in quality audits for compliance.

Junior QA/QC Engineer – Civil – Batch Plant

Reliable Concrete Company – Chennai, India

Jan 2014 – Apr 2015

- Assisted in overseeing quality control for ready-mix concrete production, ensuring that batch mixes adhered to specifications.
- Performed material inspections, reviewed test reports, and collaborated with site teams to ensure quality compliance.
- Assisted in preparing inspection reports and maintaining records for quality audits and certification submissions.
- Supported the QA/QC team in monitoring ongoing construction activities and resolving quality-related issues promptly.
- Worked with suppliers to ensure the timely delivery of quality materials and compliance with project specifications.
- Ensured ongoing quality monitoring during construction activities, including concrete pouring and finishing.
- Assisted in identifying defects and implementing corrective actions to ensure adherence to quality standards.

Graduate Engineer Trainee for QA & QC – Civil – Batch Plant

Reliable Concrete Company (RCC) – Chennai (Porur), India

Jan 2014 – Apr 2014

- Assisted in preparing and maintaining quality control documentation for ready-mix concrete operations.
- Participated in site inspections and quality checks, ensuring compliance with industry standards for raw materials.
- Supported the QA/QC team in conducting tests on concrete samples and preparing necessary documentation for certifications.
- Gained hands-on experience in adjusting concrete mix designs based on project requirements and quality standards.
- Assisted in preparing quality reports and ensuring compliance with project specifications.
- Worked closely with senior engineers to improve quality control processes and resolve any site-related quality issues.
- Supported quality monitoring activities during production and construction, ensuring consistency and compliance with quality requirements.

Part-Time Experience – Civil

Abi Tech Foundations – Chennai, India

Feb 2013 – Dec 2013 (Weekend)

- Assisted in site preparation, formwork setup, and concrete pouring operations under the supervision of senior engineers.
- Performed quality checks and helped maintain safety protocols on-site to ensure compliance with construction standards.
- Assisted in managing and handling materials on-site, ensuring efficient and timely use of resources.
- Contributed to the placement of reinforcement steel and concrete pouring, ensuring accurate execution according to design plans.
- Gained exposure to various civil engineering processes and site management tasks.
- Worked collaboratively with the team to support daily construction activities, ensuring work efficiency and project progression.
- Assisted in ensuring that all safety protocols were followed on-site to maintain a safe work environment.

**Yours Sincerely,
(ASHOK KUMAR)**
