Summary

Quality and Materials Engineer with over 18 years of experience in road materials testing and quality control, with a strong specialization in airport infrastructure projects. I have contributed to major projects across Egypt, Mauritania, and Saudi Arabia, ensuring compliance with international engineering standards and enhancing construction quality. Holding a Master's degree in Engineering Geology and Building Materials, I bring advanced expertise in material evaluation and selection, even in the most challenging environments. With a proven track record in delivering high-precision infrastructure projects—especially in aviation—I excel at meeting tight deadlines while maintaining top-tier quality and safety standards.

I strive to add value by leveraging my technical knowledge to ensure the highest quality in infrastructure development.
