PROFILE

A fresh graduate civil engineer who is excited to gain an experience and complete the path of engineering. I learn fast and have the ability to adapt. I want to have an effective role in the renaissance of my country.

WORK EXPERIENCE

Internship 08/2024 - 11/24
Albawani construction company Qiddiya Project

My internship was 3 months in albawani company in Riyadh Specifically in Water park hotel project in Qiddiya. It helped me and let me gained an experience sence it is a leading company in KSA.

Current job 01/2025 - Now
Albawani construction company Qiddiya Project

I started working with albawani as a site civil engineer at the same project Water park hotel in Qiddiya after a construction manager's recommendation . My work is checking steel, concrete on the site beside following up the block work inside the building.

TRAINING COURSES

- Value engineering for shop drawings of steel reinforcement.
- Concrete properties and tests.
- Excel skills.
- Facility management.

CERTIFICATES

Saudi Council of engineering (SCE).
