---

### **Professional Summary**

Senior Project Manager with over 30 years of experience specializing in the delivery of **critical onshore infrastructure for mega-projects in the oil and gas industry**. Proven expertise in managing full EPC project lifecycles for **Saudi Aramco**, directly supporting upstream and industrial operations through the construction of utilities, pipelines, and industrial support facilities. Demonstrated success in executing projects up to **\$400M USD** on time and under budget, while maintaining world-class safety standards of over **9,000,000 LTI-free man-hours**. Aramco-approved with advanced certifications in program, project, and risk management (PgMP, PMP, PMI-RMP).

---

### **Oil & Gas Project Expertise**

- **Project Types:** Industrial City Infrastructure, Defense & Support Facilities, Utility & Pipeline Networks (Sewage, Potable Water, Storm Water), Substations, Roadworks & Site Development.
  - **Infrastructure Scope:** Extensive experience with large-diameter pipeline networks (RTR, DI), including over **47 km of pipelines** on a single project, MV/LV electrical networks, and all associated civil works for oil and gas plant support.
  - **Client & Standards:** Deep familiarity with **Saudi Aramco** procedures, design criteria, and construction standards.
- 

### **Core Competencies**

- **Project & Program Management:** Mega-Project Leadership (\$320M+), EPC Project Lifecycle Management, Budgeting & Cost Control (CPI/SPI >1.0), Schedule Optimization (Primavera P6), Risk Management & Mitigation, Value Engineering, Contract Negotiation

& Administration, Claims Management, Project Execution Plan (PEP), Construction Management Plan (CMP)

- **Oil & Gas Infrastructure:** Onshore Civil Construction, Pipeline Networks (Sewage/RTR, Potable/DI, Storm Water), Utilities & Offsites (OSBL), Earthworks & Grading, Roadworks & Asphalt, Lift Stations, MV/LV Power Distribution, Substations, Street Lighting
  - **Construction & Compliance:** Saudi Aramco Standards & Procedures, Precast & Cast-in-Site, Steel Structures, Quality Assurance & Control (QA/QC), Procurement & Vendor Management, Technical Submissions, Shop Drawings
  - **Leadership & HSE:** Cross-Functional Team Leadership (2000+ personnel), Stakeholder Communication, HSE Management, OSHA Standards, Zero LTI Culture, Safety Program Implementation
- 

## Professional Experience

**Project Manager** | Nesma & Partners Contracting Co. | Shyba, Saudi Arabia | Feb 2022 – Present

Client: Saudi Aramco - Defense Support Facilities (Infrastructure Package) | Value: 570 Million SAR (~\$152M USD)

- Directed the EPC infrastructure package for a **critical Aramco defense oil & gas facility**, managing all utilities and site development essential for continuous operations.
- Spearheaded the installation of **12 km of GRP sewage pipelines, 15 km of potable water pipelines**, and **10 km of MV cable networks**, ensuring 100% compliance with Aramco's stringent design and safety standards.
- Successfully mitigated global supply chain risks for long-lead materials, implementing proactive procurement strategies to maintain the project's critical path and avoid schedule impacts.
- Achieved 15% reduction in material waste through lean construction and rigorous inventory management, resulting in significant cost savings.

**Project Manager** | Al Yamma Contracting | Jizan, Saudi Arabia | Dec 2014 – Jan 2022

\*Client: Saudi Aramco - Industrial Support Facility (ISFB) | Value: \$320 Million USD\*

- Delivered a complete **\$320M industrial city infrastructure project** for Saudi Aramco on schedule and under budget, achieving a CPI and SPI consistently greater than 1.0.
- Managed the entire infrastructure scope supporting oil and gas operations, including the construction of **22 km of sewage (RTR) and 25 km of potable water (DI) pipeline networks**, an electrical substation, and extensive roadworks.

- Implemented a world-class safety program, achieving a record **9,000,000 man-hours without a Lost Time Injury (LTI)**.
- Established and led the project execution framework for a workforce of over 2,000, including the CMP, Risk Register, and Baseline Schedule, ensuring flawless integration between civil, mechanical, and electrical disciplines.

**Project Manager / Senior Construction Manager** | TADMUR Contracting | Qatar | Jan 2008 – Sep 2014

*Project: Qatar University Research Complex & Seven Schools | Value: \$250 Million USD*

- Led the team to deliver this large-scale complex on schedule and within budget, managing all civil works and utility networks.
- Achieved **6,000,000 man-hours without an LTI**, demonstrating a consistent commitment to HSE excellence.
- **Previous roles from 1990-2008 in Saudi Arabia**, Project Manager at South star contracting, Sr. Construction Manager (Atiah Al Thobity), Project Engineer (Arabian Group for Engineering consultancy), Site Engineer Sad Al Shery establishment in construction of educational buildings , national guard projects , High rise buildings

### **Education & Certifications**

- **Bachelor of Science in Civil Engineering** | Zagazig University, Egypt
- **Program Management Professional (PgMP)** | PMI
- **Project Management Professional (PMP)** | PMI
- **PMI Risk Management Professional (PMI-RMP)** | PMI
- **Certified Construction Manager (CCM)** | CMAA
- **LEED Green Associate** | GBCI
- **OSHA Safety Certificate**
