PROFILE

PMP-certified Civil Engineer with 7+ years of experience across infrastructure, roads, construction, and technical office works. Skilled in project management, site supervision, quantity surveying, cost control, and coordination with stakeholders. Strong in solving technical issues and delivering projects with high quality, safety, and within schedule.

EDUCATION

Bachelor Degree (Civil Engineer),

Sudan University of Science and Technology [🔗](#)

Highway & Transportation

2013 Sep – 2018 Dec

Khartoum, Sudan

PROFESSIONAL EXPERIENCE

Civil Engineer, *Al-Owaidah Industries Co.*

2022 Jun – Present

Riyadh, Saudi Arabia

- Supervise road safety works including installation of traffic signs and guardrails.
 - Review and prepare shop drawings for road signs and safety elements per MOT standards.
 - Inspect and approve materials used in road safety works (aluminum sheets, reflective films, steel posts, guardrail beams).
 - Conduct quality control tests such as reflectivity, coating, and welding inspections.
 - Ensure proper alignment, height, and positioning of signs and road safety barriers.
 - Perform quantity take-offs and prepare cost estimates for road-related works.
 - Coordinate with design, production, and installation teams to ensure smooth execution.
 - Monitor progress and ensure compliance with road standards, safety requirements, and project schedules.

Project Manager – *Dunkin' Donuts Fit-Out Works*

(Duration: 55 Days), *Sam Tech Contracting Company*

2022 Mar – 2022 May

Al-Mujardah Aseer, Saudi Arabia

Successfully managed the fit-out and finishing works for a Dunkin' Donuts branch within a strict 45-day schedule, ensuring on-time delivery and full client satisfaction.

- Supervised civil, electrical, and mechanical works, coordinating between subcontractors, suppliers, and designers.
 - Reviewed and approved shop drawings, materials, and samples to meet Dunkin' Donuts corporate design standards.

- Controlled project cost, timeline, and quality, maintaining strict adherence to the approved budget and scope.
- Oversaw all interior finishing activities such as partitions, ceiling, flooring, painting, lighting, and signage installation.
- Ensured compliance with health, safety, and quality standards throughout the project duration.
- Conducted site inspections and coordination meetings to monitor progress and resolve technical issues.
- Prepared daily progress reports, as-built drawings, and handover documentation upon project completion.
- Achieved project handover within 55 days in accordance with franchise and client specifications.

**Technical Office Engineer (Road Construction) –
Internship (6 Months), Rawabet Al-Hamroor Ltd**

2021 Sep – 2022 Mar
Riyadh , Saudi Arabia

Assisted in preparing shop drawings and as-built drawings for road and infrastructure projects.

- Supported the senior engineers in quantity take-offs, BOQ preparation, and cost estimation.
- Reviewed project drawings and specifications to ensure compliance with design and contract requirements.
- Helped in preparing monthly progress reports and tracking project timelines.
- Participated in materials submittals and technical documentation for consultant approvals.
- Coordinated with site engineers to update quantities, resolve discrepancies, and verify completed works.
- Gained practical experience in AutoCAD, Civil 3D, and Microsoft Excel for technical documentation.
- Learned the procedures of quality control, project planning, and cost control in road construction projects.

**Site Engineer,
Columns of Construction and Contracting**

2018 Dec – 2021 Aug
Khartoum , Sudan

Supervised construction and execution of concrete works, including foundations, columns, slabs, and retaining walls.

- Ensured that all works were carried out according to approved drawings, specifications, and project schedules.
- Monitored reinforcement installation, formwork, and concrete pouring to maintain structural integrity and quality.
- Coordinated with technical office, quality control, and safety departments to ensure smooth site operations.
- Prepared daily site reports, documented progress, and tracked material usage.
- Inspected materials and workmanship to ensure compliance with design and safety standards.
- Assisted in quantity surveying, cost tracking, and subcontractor billing related to concrete works.
- Communicated with consultants and clients to resolve technical issues and obtain work approvals.

- Ensured site safety and housekeeping in accordance with HSE procedures.
