

Feras Rashed

Riyadh | +966548849585 | ferashed.9@yahoo.com

Civil Engineer with a B.E. and specialized expertise in stainless-steel applications, finishing works, and full-cycle project execution. Proven ability to manage complex construction projects—ensuring delivery on time, within budget, and to the highest quality and safety standards. Skilled in resource optimization, workflow improvement, and cross-functional coordination across diverse teams and stakeholders. **Registered with the Saudi Council of Engineers and the Jordan Engineers Association.**

Core Competencies

- Project Management & Site Coordination
- Stainless-Steel Design, Fabrication & Installation
- Finishing Works Execution & Quality Assurance (QA/QC)
- Vendor & Subcontractor Coordination
- Material Estimation, Quantity Take-Offs & Cost Control
- Safety Compliance, Risk Mitigation & HSE Standards

Experience

Construction Project Manager

Odeh Restaurant – New Branch (Riyadh) | Aug 2025 – Nov 2025

- Managed full construction and fit-out execution for the new restaurant branch, covering MEP, civil, finishing, and decorative works according to approved IFC drawings.
- Supervised subcontractors and labor teams to ensure work aligned with project schedule, BOQ, and scope.
- Oversaw installation of ceilings, wall tiles, surveillance systems, and final finishes, ensuring compliance with safety and quality standards.
- Ensured project delivery in accordance with Saudi Building Code requirements and client expectations.

Site Construction Manager

Diar United Co. – Hail / Jeddah | Aug 2024 – Jul 2025

- Performed accurate quantity take-offs and material calculations for concrete and steel to support planning and cost control.
- Supervised insulation works for large industrial tanks, improving thermal efficiency and system reliability.
- Managed finishing and extension works according to project drawings, QA/QC standards, and safety protocols.
- Conducted water-pressure testing and system validation to ensure operational performance and compliance.

Fit-Out Project Manager

Stainless Steel Project - Riyadh | Jun 2024 – Aug 2024

- Led design coordination, fabrication, and installation of stainless-steel elements for a high-end restaurant project.
- Collaborated with architects and contractors to ensure stainless-steel works met aesthetic, functional, and regulatory requirements.
- Managed project budget, procurement, and schedule to ensure timely delivery of all fabricated components.

Architectural Finishing Project Manager

Roshan Art – Riyadh | Jul 2023 – Jun 2024

- Coordinated architectural and civil works, resolving design discrepancies with consultants, architects, and subcontractors.
- Developed detailed engineering designs and provided technical support for civil and finishing activities.
- Implemented QA/QC procedures, ensuring workmanship quality and adherence to project specifications.

Site Civil Engineer

Earth Builders Construction Contracting – Amman | Dec 2021 – Jan 2023

- Conducted daily site inspections to ensure progress aligned with drawings and HSE regulations.
- Contributed to developing improved construction methods to enhance efficiency and reduce costs.
- Ensured safe work practices and compliance with health and safety standards across all site activities

Education

Bachelor of Engineering (B.E.) - Civil Engineering
Jerash National University, Jerash

Skills

- Project Management & Scheduling
 - Construction Site Supervision
 - Budgeting, Cost Control & Quantity Take-Offs
 - Problem-Solving & Decision-Making
 - Leadership & Team Coordination
 - Attention to Detail & Quality Compliance
-

Licenses & Certifications

- Quantity Surveying and Specification
