## Profile

Experienced and highly skilled Land Surveyor with over 10 years of expertise in infrastructure and construction projects. Proficient in using advanced surveying equipment such as Total Station, GPS, and Level to ensure accurate measurements and data collection. Extensive background in topographic surveys, site preparation, and quality control. Experienced in coordinating with engineers, contractors, and consultants to ensure compliance with project specifications and standards. Strong problem-solving abilities, analytical skills, and teamwork capabilities to handle complex projects efficiently and effectively.

---

## Professional Experience

Land Surveyor – Al Yamama Trading & Contracting Company (Riyadh, Saudi Arabia)

October 2024 – Present

King Salman Park Project

.Working on construction and infrastructure works, including rock excavation

.Monitoring excavation activities, controlling benchmark points, and coordinating with consultants

.Supervising quantities and delivering to consultants as per project requirements

Land Surveyor – Petrojet Company (Neom Project, Saudi Arabia)

June 2024 – October 2024

- .Implementing surveying activities for the water pipeline project from Qayal city to Oxygen
- .Working on 2-meter diameter pipelines with 3 parallel lines spanning 60 km
- .Monitoring excavation and verifying ground levels based on approved plans
- .Setting benchmark points accurately and ensuring compliance with engineering specifications

Land Surveyor – Afak Al-Mustaqbal Contracting Company (Al-Qiddiya, Saudi Arabia)

June 2023 – June 2024

- .Conducting surveying work for the Six Flags Qiddiya project, focusing on infrastructure
- Handling the installation of electrical, water, storm drainage, sewerage, firefighting systems, and internet lines
- .Utilizing Total Station, GPS, Level to ensure precise leveling and point marking
- .Preparing daily reports and surveying layouts for different project stages

Land Surveyor – Bahar Al-Dar Engineering Consultancy Office (Riyadh, Saudi Arabia)

August 2022 – May 2023

- .Executing surveying tasks for infrastructure and construction projects
- .Updating site files and ensuring compliance with surveying standards
- .Supervising leveling work for floors and concrete surfaces

Land Surveyor – Al-Madina Engineering Consultancy Office (Riyadh, Saudi Arabia)

March 2021 – July 2022

- .Conducting topographic surveys and quantity calculations for residential and commercial projects
- .Interfacing with clients and contractors, updating surveying data based on project requirements
- .Preparing technical reports and ensuring accuracy in surveying measurements

Land Surveyor – JATI General Contracting Company (Riyadh, Saudi Arabia)

January 2020 – January 2021

Working on the National Guard project for implementing the infrastructure of sewage systems and storm drainage

- .Contributing to the Sulbukh project, focusing on internal roads and infrastructure
- .Monitoring excavation works, backfilling activities, and sewer system installations
- .Overseeing roadwork layers, excavation, and rock cutting

Land Surveyor – Shebah Al-Jazeera Contracting Company (Riyadh, Saudi Arabia)

July 2019 – December 2019

- .Supervising a team of 4 surveyors to execute surveying tasks
- .Coordinating work between the company and contractors to ensure smooth workflow
- .Setting control points and preparing periodic reports

Land Surveyor – Nile Governmental Contracting Company (Egypt)

August 2017 – March 2019

- .Conducting surveying work for road construction and expansion projects
- .Using Total Station and GPS to determine points and ensure correct elevations

.Coordinating with engineers to ensure project boundaries and accurate execution

Land Surveyor – Arakomusan General Construction Company (Egypt)

September 2015 – July 2017

.Working on infrastructure projects, hotels, and commercial buildings

.Carrying out surveying tasks from excavation to finishing works

.Preparing detailed execution drawings based on field survey data

---

#### Education

Institute of Surveying and Irrigation – South Valley University (Egypt)

September 2013 – June 2015

.Diploma in Surveying and Irrigation, with Excellent grade

---

#### Technical Skills

Surveying Equipment: Total Station, GPS, Level

Engineering Software: AutoCAD Civil 3D, Google Earth, Sokkia Link

Survey Data Analysis and Processing

Topographic Survey Reporting and Quantity Calculation

Microsoft Office: Word, Excel, PowerPoint

Project Management Software: MS Project

---

#### Professional Skills

Survey Equipment Calibration: Regularly calibrating Total Station, GPS, and Level to ensure   
.accurate measurements and prevent any deviations affecting results

- Control Point Accuracy: Verifying the accuracy of reference points by comparing data from   
.multiple reliable sources
  - Ground Leveling and Elevation Testing: Using Digital Levels to confirm ground elevation   
.discrepancies and align them with design plans
  - Topographic Surveying and Field Corrections: Performing topographic surveys with GPS RTK   
.systems and analyzing data to match design maps
  - Infrastructure Network Alignment Testing: Inspecting alignment and installation of drainage and   
.sewage systems to ensure proper ground layouts
  - Excavation and Backfilling Verification: Reviewing executed quantities against design volumes   
.using Civil 3D, ensuring proper soil stability and infrastructure integrity
  - Project Boundary Accuracy: Conducting repeated measurements to guarantee dimensions and   
.locations align with approved designs and providing comparative reports to contractors
- 

#### Certifications & Training

Real Estate Unit Classification Course – Saudi Real Estate Institute, November 2022 (With  
.Excellent grade)

---

#### Languages

Arabic: Native

English: Intermediate level
