Summary

Civil Engineer with over 20 years of experience managing and executing a diverse range of construction projects across Egypt and Saudi Arabia. Proven expertise in project management, site supervision, cost estimation, quality control, and contract compliance. Skilled in leading teams, managing subcontractors, and ensuring the successful completion of projects within budget and on schedule. Known for effective communication, leadership, and a strong ability to solve problems on-site. Experienced with AutoCAD, Primavera, and Project Management Software, as well as possessing excellent technical and interpersonal skills. Adept at estimating material costs, supervising construction activities, and ensuring adherence to industry standards and safety protocols. Fluent in Arabic and English.
